Contemporary Chicana Literature: (Re)Writing the Maternal Script Cristina Herrera, 2014-03-28 Despite the growing literary scholarship on Chicana writers few if any studies have exhaustively explored themes of motherhood maternity and mother-daughter relationships in their novels When discussions of

motherhood and mother daughter relationships do occur in literary scholarship they tend to mostly be a backdrop to a larger conversation on themes such as identity space and sexuality for example Mother daughter relationships have been ignored in much literary criticism but this book reveals that maternal relationships are crucial to the study of Chicana literature more precisely examining maternal relationships provides insight to Chicana writers rejection of intersecting power structures that otherwise silence Chicanas and women of color This book advances the field of Chicana literary scholarship through a discussion of Chicana writers efforts to re write the script of maternity outside of existing discourses that situate Chicana mothers as silent and passive and the subsequent mother daughter relationship as a source of tension and angst Chicana writers are actively engaged in the process of re writing motherhood that resists the image of the static disempowered Chicana mother on the other hand these same writers engage in broad representations of Chicana mother daughter relationships that are not merely a source of conflict but also a means in which both mothers and daughters may achieve subjectivity While some of the texts studied do present often conflicted relationships between mothers and their daughters the novels do not comfortably accept this script as the rule rather the writers included in this study are highly invested in re writing Chicana motherhood as a source of empowerment even as their works present strained maternal relationships Chicana writers have challenged the pervasiveness of the problematic virgin whore binary which has been the motif on which Chicana womanhood motherhood has been defined and they resist the construction of maternity on such narrow terms Many of the novels included in this study actively foreground a conscious resistance to the limiting binaries of motherhood symbolized in the virgin whore split The writers critically call for a rethinking of motherhood beyond this scope as a means to explore the empowering possibilities of maternal relationships This book is an important contribution to the fields of Chicana Latina and American literary scholarship

the novel history myth besides her judgements on writers such as Coleridge and contemporaries such as Stein As the excitement aroused by theory subsides now may be the time for Laura Riding Jackson s considered judgement of the spiritual function of language and human life to be given the attention it deserves **The Commencement Manual** Edith F. The Book of Hiding Timothy K. Beal, 2002-01-04 The Book of Hiding offers a fluent and erudite analysis of the parallels between the Bible and contemporary discussions of gender ethnicity and social ambiguity Beal focuses particularly on the traditionally marginalised book of Esther in order to examine closely the categories of self and other in relation to religion sexism nationalism and the ever looming legacies and future possibilities of annihilation Beal applies the critical tools of contemporary theorists such as Cixous Irigaray and Levinas challenging widely held assumptions about the moral and life affirming message of Scripture and even about the presence of God in the book of Esther The Book of Hiding draws together a variety of different perspectives and disciplines creating a unique space for dialogue raising new questions and reconsidering old assumptions which is profoundly interesting and well articulated
