Ballroom Biology: Recent Insights into Honey Bee Waggle Dance Communications Roger Schürch,Margaret J. Couvillon,Madeleine Beekman,2016-03-02 The honey bee waggle dance communication is a complex unique at times controversial and ultimately fascinating behavior In an elaborate figure of eight

movement a returning forager conveys the distance and direction from the hive to resources usually the nectar and pollen that is their food and it remains one of the most sophisticated known forms of non human communication Not surprisingly since its discovery more than 60 years ago by Karl von Frisch the dance has been subject to investigations that span from basic biology through human culture and neurophysiology to landscape ecology Here we collate recent advances in our understanding of the dance The Oxford Handbook of Law, Regulation and Technology Roger Brownsword,Eloise Scotford,Karen Yeung,2017-07-24 The variety pace and power of technological innovations that have emerged in the 21st Century have been breathtaking These technological developments which include advances in networked information and communications biotechnology neurotechnology nanotechnology robotics and environmental engineering technology have raised a number of vital and complex questions Although these technologies have the potential to generate positive transformation and help address grand societal challenges the novelty associated with technological innovation has also been accompanied by anxieties about their risks and destabilizing effects Is there a potential harm to human health or the environment What are the ethical implications Do this innovations erode of antagonize values such as human dignity privacy democracy or other norms underpinning existing bodies of law and regulation These technological developments have therefore spawned a nascent but growing body of law and technology scholarship broadly concerned with exploring the legal social and ethical dimensions of technological innovation This handbook collates the many and varied strands of this scholarship focusing broadly across a range of new and emerging technology and a vast array of social and policy sectors through which leading scholars in the field interrogate the interfaces between law emerging technology and regulation Structured in five parts the handbook I establishes the collection of essays within existing scholarship concerned with law and technology as well as regulatory governance II explores the relationship between technology development by focusing on core concepts and values which technological developments implicate III studies the challenges for law in responding to the emergence of new technologies examining how legal norms doctrine and institutions have been shaped challenged and destabilized by technology and even how technologies have been shaped by legal regimes IV provides a critical exploration of the implications of technological innovation examining the ways in which technological innovation has generated challenges for regulators in the governance of technological development and the implications of employing new technologies as an instrument of regulatory governance V explores various interfaces between law regulatory governance and new technologies across a range of key social domains Trace Metals in the Environment Mario Alfonso Murillo-Tovar,Hugo Saldarriaga-Noreña,Agnieszka Saeid,2021-01-07 The occurrence of heavy metals in the environment even in traces represents a severe risk for the ecosystems and can be dangerous to human health However a better understanding of the main aspects involved is still needed to reduce its negative impact on the environment and health This book covers the recent methods used for the evaluation of heavy metal pollution and the identification of its sources descriptions of some of the

processes involved in its mobility and transport attempts to address health and environmental effects of heavy metals pollution and presents alternative technologies for its removal and remediation from environmental samples Therefore this book is recommended for experts in the comprehensive management of metal contamination in different environmental compartments

A History of Scientific Journals Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the Philosophical Transactions has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the Philosophical Transactions and its sibling Proceedings reveal the meaning and purpose of journals in a changing scientific community At a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history

Appearance in Reality John Heil, 2021-09-16 In Appearance in Reality John Heil addresses a question at the heart of metaphysics how are the appearances related to reality how does what we find in the sciences comport with what we encounter in everyday experience and in the laboratory Objects for instance appear to be colourful noisy self contained and massively interactive Physics tells us they are dynamic swarms of colourless particles or disturbances in fields or something equally strange Is what we experience illusory present only in our minds But then what are minds Do minds elude physics Or are the physicist's depictions mere constructs with no claim to reality Perhaps reality is hierarchical physics encompasses the fundamental things the less than fundamental things are dependent on but distinct from these Heil's investigation advances a fourth possibility the scientific image what we have in physics affords our best guide to the nature of what the appearances are appearances of

The Way We Never Were Stephanie Coontz, 2016-03-29 The definitive edition of the classic myth shattering history of the American family Leave It to Beaver was not a documentary a man's home has never been his castle the male breadwinner marriage is the least traditional family in history and rape and sexual assault were far higher in the 1970s than they are today In The Way We Never Were acclaimed historian Stephanie Coontz examines two centuries of the American family sweeping away misconceptions about the past that cloud current debates about domestic life The 1950s do not present a workable model of how to conduct our personal lives today Coontz argues and neither does any other era from our cultural past This revised

edition includes a new introduction and epilogue exploring how the clash between growing gender equality and rising economic inequality is reshaping family life marriage and male female relationships in our modern era More relevant than ever *The Way We Never Were* is a potent corrective to dangerous nostalgia for an American tradition that never really existed

Institutional Determinants of Social Inequality Frédérique Autin,Fabrizio Butera,2016-05-09 Understanding the factors that create and maintain social inequities is a core question in social psychology Research has so far focused on the role of individual stereotyping prejudice and discrimination However there is no such thing as a biased act of prejudiced individuals structural factors in the reproduction of social inequalities Indeed people are immersed in a world and that is the way forward In this research topic we propose to bring together the ideology and practice of the government This can be done by the researcher who is responsible for the work of the researcher the researcher the researcher the researcher the researcher the researcher the researcher and the researcher Eg teachers recruiters leaders Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning Grading tracking recruitment and ideologies eg meritocracy individualism protestant work ethic shape the psychological experience of dis advantaged people Eg teachers recruiters leaders Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning Grading tracking recruitment and ideologies eg meritocracy individualism protestant work ethic shape the psychological experience of dis advantaged people Eg teachers recruiters leaders Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning shape the psychological experience of dis advantaged people Eg teachers recruiters leaders Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning shape the psychological experience of dis advantaged people Eg teachers recruiters leaders Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning Taking the perspective of the company as a whole This could be the highlight of the process Perpetuation of the institutional functioning
