Moskop,2007-08-26 Before a separate Department of Medical Humanities was formed the editors of this volume were faculty members of the Department of Pediatrics at our medical school Colleagues daily spoke of the moral and social problems of children s health care Our offices were near the examining rooms where children had their bone

Licensing Parents Michael McFall,Laurence Thomas,2009-01-16 In *Licensing Parents* Michael McFall argues that political structures economics education racism and sexism are secondary in importance to the inequality caused by families and that the family plays the primary role in a child s acquisition of a sense of justice He demonstrates that examination of the family is necessary in political philosophy and that informal structures families and considerations character formation must be taken seriously McFall advocates a threshold that should be accepted by all political philosophers children should not be severely abused or neglected because child maltreatment often causes deep and irreparable individual and societal harm The implications of this threshold are revolutionary but this is not recognized fully because no philosophical book has systematically considered the ethical or political ramifications of child maltreatment By exposing a tension between the rights of children and adults McFall reveals pervasive ageism parental rights usually trump children s rights and this is often justified because children are not fully autonomous Yet parental rights should not always trump children s rights Ethics and political philosophy are not only about rights but also about duties especially when considering potential parents who are unable or unwilling to provide minimally decent nurturance While contemporary political philosophy focuses on adult rights McFall examines systems whereby the interests and rights of children and parents are better balanced This entails exploring when parental rights are defeasible and defending the ethics of licensing parents whereby some people are precluded from

rearing children He argues that if a sense of justice is largely developed in childhood parents directly influence the character of future generations of adults in political society A completely stable and well ordered society needs stable and psychologically healthy citizens in addition to just laws and McFall demonstrates how parental love **Essays** Francis Bacon,1875 **The Orphan in Eighteenth-Century Fiction** E.
