The Span of Mainstream and Science Fiction Peter Brigg, 2015-09-16 From the 1960s when the advent of what many call the postmodern style made establishing genres more difficult to the present day writers have been incorporating science not only the commonly thought of science and technology but also the soft sciences such as psychology and sociology into what was previously considered mainstream fiction This book examines

works by Thomas Pynchon Doris Lessing and others who incorporate science in fiction and exemplify the movement of mainstream fiction writers toward a new genre termed *span*. It also examines works by some science fiction writers who are edging closer to the border of science fiction and slowly over into *span*. This book maps the boundaries of the new *span* genre of fiction and thus helps define texts that fall outside the realms of mainstream and science fiction. Diagrams are included and a bibliography and index.

Survival Is a Promise Alexis Pauline Gumbs, 2024-08-20 A Time Must Read Book of the Year Winner of the Judy Grahn Award for Lesbian Nonfiction A Publishers Weekly Top Ten Book of the Year Shortlisted for the 2025 Brooklyn Public Library Book Prize A bold innovative biography that offers a new understanding of the life work and enduring impact of Audre Lorde We remember Audre Lorde as an iconic writer a quotable teacher whose words and face grace T-shirts nonprofit annual reports and campus diversity center walls But even those who are inspired by Lorde's teachings on the creative power of difference may be missing something fundamental about her life and work and what they can mean for us today Lorde's understanding of survival was not simply about getting through to the other side of oppression or being resilient in the face of cancer It was about the total stakes of what it means to be in relationship with a planet in transformation Possibly the focus on Lorde's quotable essays to the neglect of her complex poems has led us to ignore her deep engagement with the natural world the planetary dynamics of geology meteorology and biology For her ecological images are not simply metaphors but rather literal guides to how to be of earth on earth and how to survive to live the ethics that a Black feminist lesbian warrior poetics demands In *Survival Is a Promise* Alexis Pauline Gumbs the first researcher to

explore the full depths of Lorde's manuscript archives illuminates the eternal life of Lorde. Her life and work become more than a sound bite; they become a cosmic force teaching us the grand contingency of life together on earth. **The Mammoth Book of Best New SF 16** Gardner Dozois, 2011-08-04 Michael Swanwick, Geoff Ryman, Allen Steele, Nancy Kress, Robert Reed, Michael Cassott, Charles Stross are just some of the high profile names that feature in this volume of what is now regarded as essential reading for every science fiction fan. Farooq, Erica Fretwell, Nicholas Gaskill, Patrick Jagoda, Erin Gentry Lamb, Jennifer Rhee, Britt Rusert, Matthew A. Taylor, Aarthi Vadde, Priscilla Wald, Rebecca Walsh, 2020-11-26 This handbook illustrates the evolution of literature and science in collaboration and contestation across the twentieth and twenty-first centuries. The essays it gathers question the charged rhetoric that pits science against the humanities while also demonstrating the ways in which the convergence of literary and scientific approaches strengthens cultural analyses of colonialism, race, sex, labor, state formation and environmental destruction. The broad scope of this collection explores the shifting relations between literature and science that have shaped our own cultural moment, sometimes in ways that create a problematic hierarchy of knowledge and other times in ways that encourage fruitful interdisciplinary investigations, innovative modes of knowledge production and politically charged calls for social justice. Across units focused on epistemologies, techniques and methods, ethics and politics and forms and genres, the chapters address problems ranging across epidemiology and global health, genomics and biotechnology, environmental and energy sciences, behaviorism and psychology, physics and computational and surveillance technologies. Chapter 19 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com. **Reflections and Refractions** Robert Silverberg, 2013-11-28 Nearly twenty years ago Robert Silverberg began writing a monthly column of opinion and commentary for *Galileo Magazine*.
