**A Secret Wish** One night in San Francisco, three women make a birthday wish. Liz is turning thirty. A successful nurse, she has a good career but no man to share her life. All her friends are married, and she's alone, still trying to outrun a tragedy from her past. Then she meets a handsome stranger. Angela, a member of a large, loving Italian family, is facing thirty-five with no baby in the nursery. Eight years of infertility treatments have put a strain on her marriage. Will she have to choose between her husband and having a child? When she is mugged by an unexpected assailant, her life takes a new turn. Carole, a corporate wife, is staring down forty candles. Having grown up poor, she worked hard to get ahead, but when her kids bail on her birthday and she discovers her husband with another woman, she realizes that she may have nothing at all. She goes back to where it all began: the mother she left behind and the man whose heart she once broke.

**Just A Wish Away** Bestselling Author Barbara Freethy takes us back to the beach in an emotional love story between two best friends who have been separated for a very long time. Alexa Parker and Braden Elliott fell in love when they were twelve years old. On a summer day while searching for sea glass on the beaches of Washington State, they discovered an unusually shaped bottle. The ever imaginative Alexa declared it a genie's bottle. Popping the cork, they were surprised by a rogue wave that sprayed them with a fine, cool mist. Closing their eyes, they each made a wish. Before their love had a chance to grow, life, family, and tragedy separated the two best friends. Now fifteen years later, Alexa returns to Sand Harbor after her aunt is injured in a mysterious break-in at her antique store. Braden is also back, but he's not the innocent boy. Alexa remembers his military service has left him with physical and emotional scars. Can the sweet love of youth be recaptured by two now cynical souls? Can solving the mystery of the past bring them to a new future? Or will it take a wish, maybe two? When Wishes Collide, in a moment of desperation, two strangers make a wish only to discover that sometimes a wish can take you down an unexpected path.

Holding and Psychoanalysis, 2nd edition Joyce Anne Slochower, 2013-07-31 Is there a baby in the relational consulting room How and when can should we try to hold our patients What happens to the analyst's subjectivity when she tries to hold In *Holding and Psychoanalysis A Relational Perspective* second Edition Joyce Slochower brings a contemporary relational framework to bear on Winnicott's notion of the holding environment Revisiting the clinical impact and theoretical underpinnings of holding Slochower explores its function in those moments when ordinary interpretive or interactive work cannot be tolerated

Slochower expands the holding construct beyond the needs of dependent patients by examining its therapeutic function across the clinical spectrum. Emphasizing holding's coconstructed nature, Slochower explores the contribution of both patient and analyst to the holding moment. This second Edition introduces new theoretical and clinical material, including four additional chapters. Two of these address holding's impact on the patient's capacity to access, articulate, and process affect states; the third moves outside the consulting room to explore how holding functions in acts of memorial ritual across the lifespan. A final chapter presents Slochower's latest ideas about holding's clinical function in buffering shame states.

Integrating Winnicott's seminal contributions with contemporary relational and feminist psychoanalytic perspectives, Joyce Slochower addresses the therapeutic limitations of both interpretive and interactive clinical work. There are times she argues when patients cannot tolerate explicit evidence of the analyst's separate presence and instead need a holding experience. Slochower conceptualizes holding within a relational frame that includes both deliberate and enacted elements. In her view, the analyst does not hold alone; patient and analyst each participate in the establishment of a coconstructed holding space. Slochower pays particular attention to the analyst's experience during moments of holding, offering rich clinical vignettes that illustrate the complex struggle that holding entails. She also addresses the therapeutic limits of holding and invites the reader to consider the analyst's contribution to these failures. Slochower locates the holding process within a broader clinical framework that involves the transition toward collaboration, a move away from holding and into an explicitly intersubjective therapeutic frame.

*Holding and Psychoanalysis* offers a sophisticated integration of Winnicottian and relational thought that privileges the dynamic impact of holding moments on both patient and analyst. Thoroughly grounded in case examples, the book offers compelling clinical solutions to common therapeutic knots. Clearly written and carefully explicated, it will be an important addition to the libraries of psychoanalysts and psychoanalytic psychotherapists.
