Our Shared Legacy Mame Warren, 2006-06-09 Conscious of the past equal to the present and reaching forward into the future that's the Hopkins way That's our shared legacy That's the challenge of your tomorrow With these words to the class of 1988 Barbara Donaho 1956 underscored the complex history of nursing education at Johns Hopkins From the founding of the hospital's training nursing school in 1889 through years of struggle to achieve full academic recognition as the Johns Hopkins University School of Nursing Hopkins nurses have maintained high standards of excellence professionalism and vigilance both at the bedside and in the highest realms of leadership In this beautifully illustrated volume Mame Warren Linda Sabin and Mary Frances Keen weave a rich tapestry of the Nursing School's deep and fascinating tradition The voices of generations of Hopkins nurses combine with a well researched historical narrative to offer a stirring tribute to Hopkins nursing students and alumni along with unique insight into the history of an admirable and challenging profession

To Cast Out Disease John Farley, 2003-10-16 Though one of the most important public health agencies of the 20th century and the most powerful and richest branch of the Rockefeller

Foundation the International Health Division's history 1913-1951 has never been told before. This original work is based on a vast multitude of letters, reports, and photographs the author uncovered in the Rockefeller Archives. Farley describes the internal struggles and the conflicts with foreign and US governments of the medical barons who ran the organization as they set its goals and tried to eradicate some of the world's most serious diseases. He also describes the first testing of DDT and the preparation for the US army of a yellow fever vaccine that turned out to be contaminated. He takes the reader into the often byzantine world where the organization endowed schools of public health and nursing in such diverse places as London, Toronto, fascist Rome, militaristic Tokyo, and Calcutta in the dying days of the British Raj. Farley enlivens the book with sketches of the personalities and prejudices of those who worked in the Division and of the scandals that rocked it from time to time. He shows that in the continuing debate between those who believe that disease is the root cause of ill health and poverty and those who see poverty as the primary cause, the Division remained firmly in the former position. He also shows that after it closed, former members exerted considerable influence on the development of the World Health Organization. Opposing some recent historians, Farley argues against the view that the Health Division served as an advance guard for American capitalism. His lively book will be welcomed by all who are interested in the history of public health, tropical disease, and medical institutions.

Issues and Trends in Nursing: Essential Knowledge for Today and Tomorrow Gayle Roux, Judith Halstead, 2009-10-07. *Issues and Trends in Nursing* synthesizes the scientific, technical, ethical, and organizational issues that are essential for nurses to understand in order to work in today's ever-evolving healthcare arena. Medicine and the Ethics of Care Diana Fritz Cates, Paul Lauritzen, 2002-03-01 In these essays a diverse group of ethicists draw insights from both religious and feminist scholarship in order to propose creative new approaches to the ethics of medical care While traditional ethics emphasizes rules justice and fairness the contributors to this volume embrace an ethics of care which regards emotional engagement in the lives of others as basic to discerning what we ought to do on their behalf The essays reflect on the three related themes community narrative and emotion They argue for the need to understand patients and caregivers alike as moral agents who are embedded in multiple communities who seek to attain or promote healing partly through the medium of storytelling and who do so by cultivating good emotional habits A thought provoking contribution to a field that has long been dominated by an ethics of principle Medicine and the

Ethics of Care will appeal to scholars and students who want to move beyond the constraints of that traditional approach

Nurse Educator's Guide to Best Teaching Practice Keeley C. Harmon, Joe Ann Clark, Jeffery M. Dyck, Vicki Moran, 2016-09-07 This book presents essential teaching skills and tools for nurse educators. It begins with a discussion of the trends in nursing education and the principles of teaching and learning. The book then explores topics such as classroom teaching, clinical experiences, teaching in the simulation laboratory, and online learning. Each chapter discusses the basics of teaching and learning in the specific environment, followed by scenarios that focus on the issues encountered by nursing faculty in these settings. The scenarios present the key issues under consideration, recommend actions that faculty members can institute to address the issues, and describe rationales and solutions based on best evidence. The book also includes specific tools designed to assist nurse educators in preparation for the teaching role, such as examples of course syllabi, program outcomes, clinical contracts, and action plans. *Nurse Educator's Guide to Best Teaching Practice* is a valuable resource for novice and experienced educators in managing the challenges inherent in nursing education.
