

CONCEPT PAPER

WHAT IS A CONCEPT?

Concepts can be a little tricky. Think of them as **IDEAS**. Ideas about the world around us. Concepts are used to explain the world around us, and they are super interesting! What concept are you interested in?

EXAMPLES:

- The Poverty Cycle (an idea about how poverty works)
- The Writing Process (an idea about how writing works)
- Paranoia (an idea about how your mind acts)

NOT EXAMPLES:

- DNA – tangible. You can see it under a microscope.
- Earth's atmosphere – this is a fact.
- ✓ They are intangible (you can't touch or see them)
- ✓ They are NOT facts (they are ideas)
- ✓ They are attempts to explain something
- ✓ They take some explanation to understand
- ✓ They can be argued against (if somebody chooses to)

INTRODUCTION: National elections, student council elections

In the academic and professional setting, an institution or agency is able to decide whether a certain project or research is worth the investment through the concept paper.

WHAT IS A CONCEPT PAPER?

Prior to the submission of a project proposal, proponents are requested to submit a **summary** (what) of what the project is all about, the **reasons** (why) for conducting the project, and **how** it will be carried out. This summary document is called a concept paper. A concept paper provides an overview of the project, and helps funding agencies eliminate proposals that are likely to be disapproved. Hence, it helps save time and effort for both the proponents and the funding agencies.

Concept papers are summaries of projects or issues that reflect the interests, experiences, and expertise of the writer or organization. Concept papers generally serve the purpose of providing in-depth discussion of a topic that the writer has a strong position; it is intended to obtain **funding** for that project from donors. The term "concept paper" is used interchangeably with "proposal" because both serve the same function.

A concept paper is used as an instructional tool that may have developed as a result of extensive research, committee input and/or as a result of the outcome of a current project. Moreover, it is used to provide **guidance for implementation of a program** and to discuss best practices, philosophies, and other related issues that the writer believes **action** should be taken on in the near future.

A concept paper provides a concise summary of the key elements of a funding request for the purpose of soliciting feedback and/or buy-in from prospective funders, prospective partners,

Adewumi,Andrei Polejack,Joanna Vince,Maree E. Fudge,2023-12-05 In the last decade the concept of a Blue Economy has ignited a deep theoretical debate Ranging from the integration of the triple bottom line of sustainability to the optimization of profit from ocean exploitation the meaning of the term blue economy differs considerably between epistemic communities and even more so among national and regional policies There is a general sense of the opportunity to realise enhanced social and economic benefits from the sustainable utilisation of their ocean and coastal resources under the umbrella framework of blue economy Blue

economy is gaining traction already as a significant component of national policies even in spite of a clear conceptualization of the term. Many countries are now preparing national policies towards realising their blue economy ambitions utilizing the concept as they see fit. Likewise multilateral and regional organisations are developing guidelines and providing investment in new research technologies and financing tools that promote blue economy. Critical challenges abound in particular in less privileged countries. These include the gap in research capabilities, governments prioritizing social wellbeing and economic profit in contrast to environmental protection, the identification of new and emerging areas of ocean economic activity that are both socially and ecologically sustainable and holds viable business models that can attract private investment.

Screening the Red Army Faction Christina Gerhardt, 2018-07-12. *Screening the Red Army Faction: Historical and Cultural Memory* explores representations of the Red Army Faction (RAF) in print media, film and art, locating an analysis of these texts in the historical and political context of unfolding events. In this way the book contributes both a new history and a new cultural history of post fascist era West Germany that grapples with the fledgling republic's most pivotal debates about the nature of democracy and authority, about violence, its motivations and regulation, and about its cultural afterlife. Looking back at the history of representations of the RAF in various media, this book considers how our understanding of the Cold War era of the long sixties and of the RAF is created and re-created through cultural texts. *Federal Register*, 2003.

The Technology Cooperation Agreement Pilot Project, 1999. *Research in Psychiatry* L.K. George Hsu, Michel Hersen, 2013-11-11. This multiauthored textbook is directed to the psychiatric resident and other professionals who are interested in the issues, strategies and methods of psychiatric research. Although the field of psychiatry has not attained the scientific rigor and clinical sophistication of some of its sister disciplines in the medical arena, considerable progress has been made in the last decade or two, and a full understanding of the types of articles that now appear in such publications as the *American Journal of Psychiatry*, the *Archives of General Psychiatry* and the *Journal of the American Academy of Child and Adolescent Psychiatry* requires a fair amount of knowledge about research design and strategy. Whereas articles in psychiatric journals 20 years ago dealt mainly with psychodynamic topics and utilized nonexperimental observations, today their counterparts are concerned mostly with psychobiology, clinical features, diagnosis and treatment, and employ scientific experimental designs. The trend of applying scientific methodology to research in psychiatry is increasing and undoubtedly will continue to do so in the future.

IMF, World Bank & ADB Agenda on Privatisation Nihal Sri Ameresekere, 2011. This shockingly explosive book deals with the manipulative privatization of Sri Lanka Insurance under a privatization program pushed by IMF, World Bank and ADB, questionably mishandled by PricewaterhouseCoopers and Ernst involving a consortium of leading corporates controlled by one individual portrayed as a close associate of former US President Bill Clinton. This dubious deal was annulled as wrongful.

unlawful and illegal by the Supreme Court the highest judiciary observing that it shocked the conscience of Court asserting that public assets are held in trust on behalf of the people This Book exposes those holding elected and selected influential and powerful public office unabashedly compromising national and public interests in the disposal of an invaluable national asset at a ridiculous price to parties who had not even been pre qualified with one party incorporated in Gibraltar after the completion of the process and whose source of funds channeled through a leading Bank remained a mystery This Book appallingly reveals how pontificating professionals retrospectively manipulated the financials of Sri Lanka Insurance facilitating a fraudulent demand for a refund from the Government It reveals the unashamed condoning of fraud and corruption and bestowing on corrupt miscreants even more recognition shunning the rule of law and the absence of law enforcement and the duplicitous stances of the Chamber of Commerce and the Institute of Chartered Accountants This book is an eye opener on socio political realities and is invaluable to those dealing with privatization public finance and commerce fraud and corruption forensic accounting and to legal academics and professionals and public interest activists
