Non-Associative Algebraic Structures on MOD Planes W. B. Vasantha Kandasamy,K. Ilanthenral,Florentin

Smarandache,2015 In this book authors for the first time construct non associative algebraic structures on the MOD planes Using MOD planes we can construct infinite number of groupoids for a fixed m and all these MOD groupoids are of infinite cardinality Special identities satisfied by these MOD groupoids build using the six types of MOD planes are studied Further the new concept of special pseudo zero of these groupoids are defined described and developed Also conditions for these MOD groupoids to have special elements like idempotent special pseudo zero divisors and special pseudo nilpotent are obtained Further non associative MOD rings are constructed using MOD groupoids and commutative rings with unit That is the MOD groupoid rings gives infinitely many non associative ring These rings are analysed for substructures and special elements This study is new and innovative and several open problems are suggested

Fundamentals of Elementary Mathematics provides an understanding of the fundamental aspects of elementary mathematics. This book presents the relevance of the mathematical concepts which are also demonstrated in numerous exercises. Organized into 10 chapters, this book begins with an overview of the study of logic to understand the nature of mathematics. This text then discusses mathematics as a system of structure or as a collection of substructures. Other chapters consider the four essential components in a mathematical or logical system or structure, namely undefined terms, defined terms, postulates, and theorems. This book discusses as well several principles used in numeration systems and provides examples of some numeration systems that are in use to illustrate these principles. The final chapter deals with the classification of certain mathematical systems as groups, fields, or rings to demonstrate some abstract mathematics. This book is a valuable resource for students and teachers in elementary mathematics.
