Domesticating Human Rights Fidèle Ingiyimbere, 2017-05-26 This book develops a philosophical conception of human rights that responds satisfactorily to the challenges raised by cultural and political critics of human rights who contend that the contemporary human rights movement is promoting an imperialist ideology and that the humanitarian intervention for protecting human rights is a neo colonialism These claims affect the normativity and effectiveness of human rights that is why they have to be taken seriously At the same time the same philosophical account dismisses the imperialist crusaders who support the imperialistic use of human rights by the West to advance liberal culture Thus after elaborating and exposing these criticisms the book confronts them to the human rights theories of John Rawls and Jürgen Habermas in order to see whether they can be addressed Unfortunately they are not Therefore having shown that these two philosophical accounts of human rights do not respond convincingly to those the postcolonial challenges the book provides an alternative conception that draws the understanding of human rights from local practices It is a multilayer conception which is not centered on state but rather integrates it in a larger web of actors involved in shaping the practice and meaning of human rights Confronted to the challenges this new conception offers a promising way for addressing them satisfactorily and it even sheds new light to the classical questions of universality of human rights as well as the tension between universalism and relativism

Anti-Judaism, Antisemitism, and Delegitimizing Israel Robert S. Wistrich,2016-12-01 Although early Zionist thinkers perhaps naively believed that anti Jewish persecution would end with sovereignty anti Zionism has become one form of the new antisemitism following World War II Because antisemitism has not been effectively addressed anti Jewish rhetoric activism and deadly violence have flourished around the world In Anti Judaism Antisemitism and Delegitimizing Israel editor Robert S Wistrich and an array of notable academics journalists and political scientists analyze multiple aspects of the current surge in anti Jewish and anti Israel rhetoric and violence Contributors Ben Cohen R Amy Elman Lesley Klaff Matthias K ntzel Nelly Las Alvin H Rosenfeld and Efraim Sicher among others examine antisemitism from the perspectives of history academia gender identity and religion Offering a variety of viewpoints and insights into disturbing trends worldwide the contributors provide a basis for further discussion and increased efforts to counter the increasingly vocal and violent hatred of Jews and Israel *Speaking Out* C. E. R. Abraham,2006 **Narratives of Trauma** ,2015-06-29 Over the last decade German culture has been engaged in a re examination of the traumatic events of the Second World War and their post war legacy in the public and private sphere This shift in German memory culture from a focus on responsibility for the Holocaust to a focus on wartime suffering has attracted a lot of critical attention over the past decade in both Cultural and Literary Studies and History This volume brings together British German Dutch and American scholars from the fields of Cultural Studies History and Sociology to address the national and international significance of discourses of German wartime

suffering in post war and contemporary Germany The focus of this interdisciplinary volume is both on the historical roots of the Germans as victims narratives and the forms of their continuing existence in contemporary public memory and culture The first three sections of this volume explore the conditions of German victim discourses in a variety of media and public arenas from historiography sociology literature and film to monuments civil defence bunkers and local public memory The final section sets the contemporary re articulation of German wartime suffering in an international context with respect to its reception and its reflection in both Western and Eastern Europe and Israel American Imperialism's Undead Raphael Dalleo,2016-09-02 As modern Caribbean politics and literature emerged in the first half of the twentieth century Haiti as the region s first independent state stood as a source of inspiration for imagining decolonization and rooting regional identity in Africanness Yet at precisely the same moment that anticolonialism was spreading throughout the Caribbean Haiti itself was occupied by U S marines a fact that regional political and cultural histories too often overlook In *American Imperialism's Undead* Raphael Dalleo examines how Caribbean literature and activism emerged in the shadow of the U S military occupation of Haiti 1915-34 and how that presence influenced the development of anticolonialism throughout the region The occupation was a generative event for Caribbean activists such as C L R James George Padmore and Marcus and Amy Jacques Garvey as well as for writers such as Claude McKay Eric Walrond and Alejo Carpentier Dalleo provides new ways of understanding these luminaries while also showing how other important figures such as Aimé Césaire Arturo Schomburg Claudia Jones Frantz Fanon Amy Ashwood Garvey H G De Lisser Luis Palés Matos George Lamming and Jean Rhys can be contextualized in terms of the occupation By examining Caribbean responses to Haiti s occupation Dalleo underscores U S imperialism as a crucial if unspoken influence on anticolonial discourses and decolonization in the region Without acknowledging the significance of the occupation of Haiti our understanding of Atlantic history cannot be complete *In Defence of Marxism* Leon Trotsky,2020-10-01 This book is correctly regarded as one of Trotsky s finest classics It is a product of a sharp polemic within the American Trotskyist movement during the period 1939-40 This was a dispute which touched on the very fundamentals of Marxism It was for this reason that Trotsky himself participated in this struggle in the form of a series of articles and letters that are brought together in this volume The issues covered concern the essence of Marxist theory and deal with such questions as The class nature of the Soviet state The defence of the Soviet Union against imperialist attack Bolshevik principles of organisation Dialectical Materialism This book is Trotsky at his best profound concise and theoretically razor sharp Disequilibrium, Polarization, and Crisis Model Isabelle Dierauer,2013-05-16 Different international relations theorists have studied political change but all fall short of sufficiently integrating human reactions feelings and responses to change in their theories This book adds a social psychological component to the analysis of why nations politically organized groups or states enter into armed conflict The *Disequilibrium Polarization and Crisis Model* is introduced which draws from prospect theory realism liberalism and constructivism The theory considers how

humans react and respond to change in their social political and economic environment Three case studies the U S Civil War the Yugoslav Wars 1991 1995 and the First World War are applied to illustrate the model s six process stages status quo change creating shifts that lead to disequilibrium realization of loss hanging on to the old status quo emergence of a rigid system and risky decisions leading to violence and war
