Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American focused magazine. *Black Greek-letter Organizations in the Twenty-First Century* Gregory S. Parks, 2008-06-13 During the twentieth century, black Greek letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. Partly because of their perceived link to hip hop culture, black fraternities and sororities have been unfairly reduced to a media stereotype, a world of hazing without any real substance. The general public knows very little about BGLOs, and surprisingly, the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek Letter Organizations in the Twenty-first Century: Our Fight Has Just Begun* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. The book examines BGLOs' responses to a number of contemporary issues, including non-black membership, homosexuality within BGLOs, and the perception of BGLOs as educated gangs. As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena, Louisiana, these organizations still have a vital mission. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and

the difficulty of bridging the divide between college and alumni members Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead Women at Indiana University Andrea Walton,2022-07-05 The first in depth look at how women have shaped the history and legacy of Indiana University Women first enrolled at Indiana University in 1867 In the following years they would leave an indelible mark on this Hoosier institution However until now their stories have been underappreciated both on the IU campus and by historians who have paid them little attention Women at Indiana University draws together 15 snapshots of IU women s experiences and contributions to explore essential questions about their lives and impact What did it mean to write the petition for women s admission or to become the first woman student at an all male university To be a woman of color on a predominantly white campus To balance work studies and commuting entering college as a non traditional student How did women contribute to their academic fields and departments How did they tap opportunities confront barriers and forge networks of support to achieve their goals Women at Indiana University not only opens the door to a more inclusive and accurate understanding of IU s past and future but also offers greater visibility for Hoosier women in our larger understanding of women in American higher education **Women of Discriminating Taste** Margaret L. Freeman,2020-12-01 Women of Discriminating Taste examines the role of historically white sororities in the shaping of white womanhood in the twentieth century As national women s organizations sororities have long held power on college campuses and in American life Yet the groups also have always been conservative in nature and inherently discriminatory selecting new members on the basis of social class religion race or physical attractiveness In the early twentieth century sororities filled a niche on campuses as they purported to prepare college women for ladyhood Sorority training led members to comport themselves as hyperfeminine heterosocially inclined traditionally minded women following a model largely premised on the mythical image of the southern lady Although many sororities were founded at non southern schools and also maintained membership strongholds in many non southern states the groups adhered to a decidedly southern aesthetic a modernized version of Lost Cause ideology in their social training to deploy a conservative agenda Margaret L Freeman researched sorority archives sorority related materials in student organizations as well as dean of women s student affairs and president s office records collections for historical data that show how white southerners repeatedly called upon the image of the southern lady to support southern racial hierarchies Her research also demonstrates how this image could be easily exported for similar uses in other areas of the United States that shared white southerners concerns over changing social demographics and racial discord By revealing national sororities as significant players in the grassroots conservative movement of the twentieth century Freeman

illuminates the history of contemporary sororities difficult campus relationships and their continuing legacy of discriminatory behavior and conservative rhetoric

A Pledge with Purpose Gregory S. Parks, Matthew W. Pursuing a Promise F. Erik Brooks, 2006 In Statesboro Georgia two schools coexisted one white and the other black Yet these schools were intertwined by their geographical location and the traditions of the segregated South There are many glaring similarities between the white students of Georgia Southern University s forerunner the First District A M School and the black students of the Statesboro Industrial and High School Yet as happened all too often in the South as implementation of the federal court s desegregation orders took shape Negro schools were downgraded or outright closed Statesboro was no different While First District A M became a regional university Statesboro Industrial and High School was downgraded to a junior high school In 1961 integration on the higher education level at Georgia s flagship university captured national attention Few works if any have examined desegregation in the context of non flagship universities Likewise there is a misguided mythology that desegregation occurred quietly at Georgia Southern University it s clear that while there was not the violence and rioting seen elsewhere in Southern universities blacks were marginalized and did not feel welcome at the college A passive group after the initial integration blacks adopted tactics of protest and confrontation to empower themselves Taking a page from

the Civil Rights Movement black students and faculty established organizations to confront discrimination and gain access to campus leadership positions This is a story about the defeats victories struggles and developments of blacks at Georgia Southern University
