

# Uniform State Test (UST) Implementation Information

The Department will not be making available test materials, materials will not be sold, or the tests will not be taken on or off a secure testing platform, or in a secure testing environment, and no release of specific questions or answers is permitted.

## Overview

On April 1, 2020, NWEA launched the Uniform State Test for UST. This is the first major change to NWEA's K-12 Test requirements since the NWEA K-12 tests were launched in July 2016.

This UST is a new addition to practice for the National Test. This new addition includes 10 questions which bring the length of the National Test Component with Uniform State Component. 10 questions, of which 5 are new and 5 are old, are now used. This value brings the total length of the National Test to 100 questions.

This UST includes test questions on the knowledge of high level state subject content that is used in the NWEA K-12 Test and the NWEA K-12 Test. School State Learning Objectives (SLOs) are used to implement the NWEA K-12 Test. This component also has the National Test Component with Uniform State Component, and the State UST testing information, which is [here](#).

This UST implements state specific test components for the states that adopt it. Therefore, by passing the National with Uniform State Component as the State UST, a candidate receives the testing information for learning in the National Test, and also state that adopt it.

As of July 1, 2020, 10 states have signed agreements to adopt the UST. These participating state agencies may want to participate in the UST as a learning state, but they are not required to do so. State agencies should consider to adopt the UST will continue to require agencies to take questions the current state specific test components. For a list of states that have signed the UST, see [UST Administration and Test](#).
