students drew on to write an exposition and considered the role of writing in school history The study combined a functional linguistic analysis of student writing with educational considerations in the underresearched content area of history Data set consisted of writing done by students who were English language learners and other culturally and linguistically diverse students from two school districts in California The book is an investigation of expository school history writing and teachers expectations for this type of writing School history writing refers to the kind of historical writing expected of students at the pre college levels
