

9 TIPS ON HOW TO come up with a business name

01. Research the market

Analyze your competitors' names and see what works for them. Try to spot common traits and use them in your naming process.

03. Use a name generator

Short and easy-to-spell names are memorable and will stick in people's memories. Avoid special characters and weird spelling.

05. Don't get too creative

Your online presentation is crucial for your business's success. Pick a name that comes with an easy-to-type domain name.

07. Think long-term

Use search engines, trademark databases, and LLC searches to see if a company with that name already exists.

09. Ask for feedback

Learn what words and phrases people use when searching for products from your niche.

02. Research the competition

Use our AI-powered business name generator to come up with 1,000+ catchy name ideas with ease.

04. Make it short and memorable

While your name needs to be unique, don't get too creative. The name should clearly convey what your company is all about.

06. Be web-friendly

Try to envision where your company will be in five or ten years. Don't pick a name that's too specific and will limit your growth.

08. Check if it's available

Ask your friends, family, and potential customers what they think about the name and if they find it memorable.
