Overview /

The Vortex® Wheel Loader Training Pack is part of the Vortex construction equipment training product suite. From earth moving and stockpile management to truck loading, operators who train with Vortex simulators develop the skills, coordination, and workspace awareness they need to master safe, efficient operations.

Key features & benefits /

The Wheel Loader Training Pack integrates guided learning features in the form of real-time feedback during exercises, on crucial metrics such as distance from objects, traction, and terrain height. It also integrates the industry's only real-time Grade Quality Sensor (GQS). The GQS tracks key metrics such as height, slope and standard deviation.

This feedback allows trainees to make the adjustments needed in order to advance their learning more quickly, and ultimately develop positive habits that will carry over to the real equipment.

A progressive learning program covering basic to advanced skills ranging from control familiarization and excavating, to working with stockpiles and truck loading.

Performance metrics and reporting that provides students with the feedback on their operating and earth moving skills.

Best-of-class loader and earthmoving simulation that ensures real skills development and behaves like the real machine.
