Questions of the Liminal in the Fiction of Julio Cortazar Domenic Moran, 2017-12-02 The great Argentinian writer Julio Cortazar 1914-84 was immersed in one of the most vibrant and revolutionary intellectual scenes of the last century the Paris of the 1950s and 60s Yet his often highly cerebral work has never received the close philosophical attention it deserves Moran's book fills this critical lacuna Rather than indiscriminately applying theory to Cortazar it aims to show that his work both engages with and often foreshadows many of the problems which were to become central to so called poststructuralist philosophy and poetics This study demonstrates that Cortazar remains enduringly problematically modern [The Moving Form of Film](#) Lúcia Nagib, Stefan Solomon, 2023 [The Moving Form of Film](#) Historicizing the Medium through Other Media charts the ways in which crossing borders between film and other arts and media can provide an encompassing inclusive and non teleological understanding of film history Evolutionary narratives of cinema have traditionally adopted the Second World War as a watershed that separates classical Hollywood films from modern European productions a scheme that subjects the entire world to the cinematic history of two hegemonic centres In turn histories of film as a technological medium have focused on the specificity of cinema as it gradually separated from the other art and medial forms theatre dance fairground spectacle painting literature still photography and other pre cinematic modes Taking an ambitious step forward with relation to these approaches this book focuses on the fluid quality of the film form by exploring an array of exciting and often neglected artistic expressions worldwide as they compare and interconnect films across temporal geographical and cultural borders By observing the ebb and flow of film's contours within the bounds of other artistic and medial expressions the chapters aspire to establish a flexible historical platform for the moving form of film posited from production to consumption as a transforming and transformative medium [The World Under Capitalism](#) Branko Milanovic, 2025-04-07 Branko Milanovic is best known as one of the world's leading experts on global inequality But he is also an unusually wide ranging and penetrating commentator on subjects across economics and beyond in politics history and culture This book brings together his most searching provocative and entertaining articles of recent years providing an abundance of vital insights into the evolution and dynamics of the world under capitalism The volume features important ideas about the struggle to achieve a more equal and prosperous world against not only the predictable forces of deregulation and distraction but new ideas about shrinking the economy to protect the environment Further from Milanovic's speciality readers will find an extraordinary array of reflections on subjects including migration globalization the politics and economics of Russia and

China the crisis of liberal democracy economic and literary history and the intellectual giants of economics The pieces are united by Milanovic s distinctive voice humane wry and realistic and by remarkable erudition worn lightly whether the topic is the fall of Constantinople Jane Austen or the mores of contemporary soccer No one can fail to learn from the book while the sparkling prose unexpected observations and sheer importance of the subjects at hand make it a compelling read from start to finish
