Geographies of Globalization Andrew Herod,2009-02-02 Exploring a wide range of issues from the integration of the world economy to how contemporary processes are shaping and shaped by nation states and how workers are organizing transnationally in response to transformations in the planet's economic geography Geographies of Globalization is a critical examination of what has become the leitmotif of our contemporary world Challenges neoliberal assumptions on the nature of globalization Provides a conceptual overview of how globalization is a spatial process and of its relation to capitalism Explores whether we are in fact living in a more globalized world or only in a more internationalized one Considers arguments concerning whether globalization is a new phenomenon or simply the latest manifestation of processes many hundreds of years in the making Focuses on how nation states have shaped and been shaped by contemporary processes of globalization how globalization has been imagined discursively and how workers are responding to such processes Explores how workers are creating new

organizing strategies in response to globalization *International Democracy and the West* Richard Youngs, 2004-11-04 This book adds to debates over the international dimensions of democratic change by studying the policies and actions of three sets of Western actors namely governments multinational companies and international NGOs This actor based triangular approach responds to observations that the strategic economic and social aspects of international democracy have rarely been studied in a combined holistic fashion During the 1990s Western governments multinational companies and civil society organizations all came to engage more notably in debates over democratic trends But were they genuine when they professed a concern with democracy in developing countries Which of these dynamics governmental commercial or social was the most influential in propelling efforts to encourage democratization and which helped explain the limits of democracy's international reach Did political economic and social actors form a broad network of international democratic momentum or did their respective perspectives increasingly diverge Exploring these questions the book presents extensive empirical material relating to Western policies in a number of developing regions covering the period from the mid 1990s to 2003 Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Official Fellow Nuffield College University of Oxford Multinational Enterprises and the Global Economy John H. Dunning, Sarianna M. Lundan, 2008-01-01 For many years to come this volume is surely going to be the ultimate reference work on international business thanks to Dunning and Lundan have at their disposal a wealth of relevant data as well as theoretical and empirical analyses which will enable them to assess the capabilities contributions and challenges posed by the multinational enterprises to the global economy Seev Hirsch International Business Review Multinational Enterprises and the Global Economy has become a classic in international business Yet the book's second edition is even better than the first in part because of Professor Dunning's wise decision to choose Dr Lundan as his co author and to draw upon her deep knowledge of various strands of research on business government relations and the societal effects of firm behaviour In addition to being a remarkably useful reference book Multinational Enterprises and the Global Economy is the first book any IB doctoral student should read to understand the significance and richness of IB scholarship as it has developed over the past 50 years Alain Verbeke Journal of International Business Studies The second edition of Multinational Enterprises and the Global Economy provides unparalleled coverage not only of the literature relevant to IB research but also of the evolution of IB in the world economy Dunning and Lundan offer powerful insights into the societal effects of MNEs and the role of business government relations in the IB context Journal of International Business Studies This wonderful book offers the definitive synthesis of the modern literature on the economic aspects of international business It is encyclopedic yet full of incisive insights It is a creative

masterpiece which unbundles the DNA of the multinational enterprise and shows how it is the cornerstone of the field of international business Alan M Rugman University of Reading UK The rise of the multinational enterprise and the consequent globalisation of the world economy was arguably the single most important phenomenon of the second half of the twentieth century This magisterial book written by two leading authorities examines this phenomenon in depth It explains how foreign investment by multinationals diffused advanced technologies and novel management methods driving productivity growth in Europe Asia and North America however economic inequalities were reinforced as rich countries attracted more foreign investment than poor ones This new edition of a classic work is not only an authoritative guide to contemporary multinational business but a major historical resource for the future Mark Casson University of Reading UK This thoroughly updated and revised edition of a widely acclaimed classic text will be required reading for academics policymakers and advanced students of international business worldwide Employing a distinctive and unified framework this book draws together research across a range of academic fields to offer a synthesis of the determinants of MNE activity and its effects on the economic and social well being of developed and developing countries Unique to the new edition is its focus on the institutional underpinnings of the resources and capabilities of MNEs and the role of MNE activity in transmitting and facilitating institutional change Since the initial publication of this book more than a decade ago the economic managerial and social implications of globalisation and technological advancement have become even more varied and prominent Accompanying these developments there has been a rise in scholarly interest in interdisciplinary research addressing the important challenges of an ever changing physical and human environment Drawing on articles and books from international business and economics as well as economic geography political economy and strategic management a systematic overview of the developments in scholarly thinking is presented

Multinational Companies, Knowledge and Technology Transfer Alper

Sönmez, 2013-12-18 This book provides evidence on how FDI leads to knowledge and technology transfers towards domestic firms by paying attention to the role of multinational companies The author presents a comprehensive empirical research conducted at firm level in the Turkish automotive industry Using a representative sample of face to face in depth interviews with top executives and a survey of top level managers of domestic suppliers the research analyzes the existence channels intensity and determinants and the kind of transfers that occur at both inter and intra firm level in the industry The author contends that policies aimed at attracting FDI flows should be re examined under the findings and insights of this study since it is a necessary although not sufficient condition to have an efficient absorptive capacity level and or skilled human capital stock in order to benefit from these flows This study has policy implications for the automotive industry as well as practical recommendations for the public institutions and top executives in emerging country companies and multinationals in order to conceive and implement science and technology policies in supporting the knowledge transfers

Global Political Economy Theodore H. Cohn,2015-08-07 Praised for its authoritative coverage Global Political Economy places the study of IPE in its broadest theoretical context This text not only helps students understand the fundamentals of how the global economy works but also encourages them to use theory to more fully grasp the connections between key issue areas like trade and development Written by a leading IPE scholar Global Political Economy equally emphasizes theory and practice to provide a framework for analyzing current events and long term developments in the global economy

Global Capitalism at Bay Professor John H Dunning,2000-12-14 Renowned authority in international business John H Dunning here elaborates his theories on the current situation of foreign direct investment and multinational enterprises A unique study of contemporary capitalism and its possible future

Governing Globalization Deepak Nayyar,2002 It is now more than fifty years since the United Nations system and the Bretton Woods institutions were created The world has changed since then and so have its governance needs in terms of institutions and rules It is time to think about the contours of institutions and governance that would meet the needs of the world economy and also polity at least for the first quarter of the twenty first century This book is the first to examine the subject in depth The study is divided into four parts The first situates the subject in the wider context of globalization which has shaped development in the world economy affected the living conditions of people and constrained the role of nation states The international context and the national setting are explored The second part analyses some issues of emerging significance in the contemporary world such as global macroeconomic management transnational corporations international capital flows and cross border movements of people to suggest that there are some missing institutions which are needed The third part provides a critical evaluation of the existing institutions in retrospect with a focus on the UN the IMF the World Bank and the WTO It analyses how existing rules need to be modified or existing institutions need to be restructured to meet the present and future needs of global governance The fourth part explores some important elements of governance which are critical for any vision of the future It suggests some changes in existing institutions and points to emerging governance needs where new institutions may have to be created This authoritative volume will be of enormous value to readers with an interest in

international economics development economics and international relations It will also be of immense value to practitioners both policy makers and diplomats concerned with problems of global governance and should become the standard reference on the subject

Global Capitalism, FDI and Competitiveness John H. Dunning, 2002-01-01 This volume comprises 15 of John Dunning's most widely acknowledged writings on the changing characteristics of the global economy over since the 1970s It examines in particular how these events have shaped and been shaped by the growing internationalism of all forms of business activity The book is divided into five thematic sections each of which illustrates a particular aspect of change and the author's analysis of it It examines the main features of the new global economy its origin opportunities and challenges the author's writings on the factors affecting the location of economic activity by international firms the changing nature and form of the contribution of FDI and cross border strategic alliances to economic development and to the restructuring of national economies and the relationship between the competitive advantages of international firms and the productivity and dynamic comparative advantage of the economies in which they operate

East Central Europe and the former Soviet Union Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region

Foreign Direct Investment in Russia P. Fischer, 2016-05-02 Russia's post reform crisis can be alleviated The country has the market the abundant natural resources and the human skills that foreign investors seek What it needs is policies that enhance FDI inflows Policy makers can learn from the other large emerging markets like China India and Mexico where FDI has revitalized the economy

Global Finance at Risk S. Sen, 2003-08-22 Sunanda Sen offers an analysis of the ongoing malaise in the world economy which include the financial and real instability as well as economic recession and lack of development Rejecting the explanations advanced by the orthodoxy she deplores the retrograde steps in the interest of high finance This calls for a change in policies away from the contractionary monetarist devices and in the direction of demand expansion which will prove mutually beneficial for both advanced and developing countries

Understanding FDI-Assisted Economic Development Sanjaya Lall, Rajneesh Narula, 2013-09-13 It is nowadays well accepted that both economic growth and development are highly dependent on improving not just the availability of capital but also access to technological capabilities infrastructure and resources This has gone hand in hand with an increasing economic liberalization of most developing countries The role of the MNE as a viable source of both capital and technology is one of the key features of this new openness In the process of embracing FDI as a solution to the myriad of economic ills something even the World Bank has begun to do little attempt is made to understand the rationale and the costs associated with this policy stance Simply put FDI is not a condition sine qua non for development Too much emphasis has been placed on attracting FDI and not on understanding how to optimise the benefits

for the host economy This volume aims to encourage and promote research related to these issues This volume was previously published as a special issue of the European Journal of Development Research *Multinationals and Asia* Axele Giroud, Deli Yang, Alex Mohr, 2007-05-07 Adopting an international business perspective this book surveys recent business developments in Asia and the activities of multinational firms in the region focusing in particular on the changing nature of organizational and institutional relationships including intra and inter organizational relationships business relationships with institutions and relationships with stakeholders The international team of contributors discuss the current and future trends in a wide range of business sectors across the region as well as assessing how the nature of multinationals activities in the region is changing as the business environment evolves and becomes more globalized
