Literature and Theology Dr Heather Walton, 2013-06-28 This book explores current trends in the interdisciplinary study of literature and theology an area of academic activity that has developed dramatically in the past twenty years. The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory. Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have become increasingly unstable. This book brings together the work of leading scholars in the field with that of emerging voices. Offering an important resource for the growing number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging configurations **Engaging Dialogue** Jennifer O'Meara, 2018-01-09 Examines the

politics of female ship in relation to contemporary documentary practices **A Companion to D. W. Griffith** Charles Keil, 2018-02-05 The most comprehensive volume on one of the most controversial directors in American film history. A Companion to D W Griffith offers an exhaustive look at the first acknowledged auteur of the cinema and provides an authoritative account of the director's life work and lasting filmic legacy. The text explores how Griffith's style and status advanced along with cinema's own development during the years when narrative became the dominant mode when the short gave way to the feature and when film became the pre eminent form of mass entertainment. Griffith was at the centre of each of these changes though a contested figure he remains vital to any understanding of how cinema moved from nickelodeon fixture to a national pastime playing a significant role in the cultural ethos of America. With the renewed interest in Griffith's contributions to the film industry A Companion to D W Griffith offers a scholarly look at a career that spanned more than 25 years. The editor a leading scholar on D W Griffith and the expert contributors collectively offer a unique account of one of

the monumental figures in film studies Presents the most authoritative complete account of the director s life work and lasting legacy Builds on the recent resurgence in the director s scholarly and popular reputation Edited by a leading authority on D W Griffith who has published extensively on this controversial director Offers the most up to date singularly comprehensive volume on one of the monumental figures in film studies Social Bodies Helen Lambert, Maryon McDonald, 2009 A proliferation of press headlines social science texts and ethical concerns about the social implications of recent developments in human genetics and biomedicine have created a sense that at least in European and American contexts both the way we treat the human body and our attitudes towards it have changed This volume asks what really happens to social relations in the face of new types of transaction such as organ donation forensic identification and other new medical and reproductive technologies that involve the use of corporeal material Drawing on comparative insights into how human biological material is treated it aims to consider how far human bodies and their components are themselves inherently social The case studies ranging from animal human transformations in Amazonia to forensic reconstruction in post conflict Serbia and the treatment of Native American specimens in English museums all underline that without social relations there are no bodies but only human remains The volume gives us new and striking ethnographic insights into bodies as sociality as well as a potentially powerful analytical reconsideration of notions of embodiment It makes a novel contribution too to science and society debates The Self-emptying God Peter J. Colyer, 2014-10-17 Christ emptied himself we read in Paul s letter to the Philippians words that are probably part of an early Christian liturgy In this book Peter Colyer examines in detail the concept of the self emptying kenosis of Christ and of the ways in which this understanding of the historic figure of Jesus Christ has been extended to the whole being of God The sections of the book deal with the need for compatibility between theological and scientific views of the natural world the increas The Commercial and Financial Chronicle , 1921 The Commercial & Financial Chronicle ... , 1921 **Theology at the End of Culture** Russell Re Manning, 2005 This book is a reconsideration of Paul Tillich s 1886 1965 project of a theology of culture and art Concentrating on Tillich s widely neglected pre emigration writings 1910 1933 Re Manning reconstructs and defends Tillich s proposals for theology of culture as a philosophically sophisticated programme of theological engagement with culture and art On the boundary between the extremes of liberal Christian humanism and neo orthodox isolationism Tillich s project is shown to be a powerful continuation of the mediatory intentions of the Schleiermacher Troeltsch line of modern Protestant theology to overcome the intolerable gap between religion and culture Drawing heavily on Tillich s incorporation of Schelling s positive philosophy into the deep structure of this theology Re Manning argues that Tillich s Idealistic Romantic theology of mediation provides a way through the entrenched oppositions of the divided mind of twentieth century theology to a constructive theology of cultural engagement Further this book offers an assessment of the continued relevance of Tillich s project in the situation of contemporary philosophical theology Beyond the dominant antithetical types of postmodern

theology Mark C Taylor's a theology and the radical orthodoxy of John Milbank Re Manning argues for the possibility of a Tillichian postmodern theology of culture able to engage with the spiritual situation at the end of culture
