Handbook of Academic Integrity Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

Handbook of Climate Change Communication: Vol. 3 Walter Leal Filho, Evangelos Manolas, Anabela Marisa Azul, Ulisses M. Azeiteiro, Henry McGhie, 2018-01-09 This comprehensive handbook provides a unique overview of the theory methodologies and best practices in climate change communication from around the world It fosters the exchange of information ideas and experience gained in the execution of successful projects and initiatives and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation Addressing a gap in the literature on climate change communication and pursuing an integrated approach the handbook documents and disseminates the wealth of experience currently available in this field Volume 3 of the handbook provides case studies from around the world documenting and disseminating the wealth of experiences available

Understanding Relational and Group Experiences through the Mmogo-Method® Vera Roos, 2016-07-13 This volume describes the development and application of the Mmogo method as a projective visual data gathering method applied in different contexts and with different groups of people Mmogo means togetherness in Setswana one of the 11 official languages of South Africa The Mmogo method provides a deep understanding of personal relational and group experiences and is particularly useful in cross cultural contexts and across age groups By allowing visual expressions of the self as a complex dynamic social system it overcomes some of the limitations of traditional data collection methods such as questionnaires or interviews The book draws

together contributions by leading social scientists to show how this flexible visual data collection method can be used independently or jointly with other data gathering techniques such as journalling or in depth interviewing to acquire rich information The research method described here enables investigators to access perceptions feelings and personal experiences participants might otherwise find hard to verbalize and explain Researchers in disciplines such as education social sciences consumer sciences market research and city and town planning will find this book and its innovative method particularly valuable in addressing a gap in available visual and other data collection resources

Engagement with Sustainable Development in Higher Education Mustafa Öztürk, 2022-08-22 This edited volume analyzes cases of higher education programs engaging with sustainable development Offering cases from across the globe that focus on the role of universities in promoting societal transformations and building sustainable futures the volume specifically discusses how higher education institutions can educate for the Sustainable Development Goals SDGs As critical spaces for research development and innovation higher education institutions are fundamental change agents for societal transformations Their role in disseminating sustainability through different paths is undeniable and it is worth discussing the dimensions that surround the concept of sustainability within universities Considering the role of policy curriculum practice teaching research and development paths in universities this book looks at the contributions of higher education sector to our vision of sustainable development This publication offers readers a chance to look at different higher education institutions engagement with sustainable development through political managerial curricular and practical steps

Community-based Research with Vulnerable Populations Lesley Wood, 2022-01-01 This book advocates for community based research with vulnerable populations within the field of higher education The chapters outline how research can democratize knowledge generation to make it more accessible and socially relevant and emphasizes the value of the lived and experiential knowledge of vulnerable and marginalized populations Rooted in a critique of the current practices of higher education that fail to support participatory and transformative research the research is structured at micro macro and meso levels to ultimately emancipate colonized thinking of stakeholders about power privilege and participation Focusing primarily on various contexts within the Global South the contributors argue that the time is ripe for community based research which combines the theoretical knowledge of the academy with the local experiential knowledge of those experiencing the consequences of social inequality to co construct knowledge for change

Theory and Best Practices in Science Communication Training Todd P. Newman, 2019-07-23 This edited volume reports on the growing body of research in science communication training and identifies best practices for communication training programs around the world Theory and Best Practices in Science Communication Training provides a critical overview of the emerging field of by analyzing the role of communication training in supporting scientists communication and engagement goals including scientists motivations to engage in training the design of training programs methods for evaluation and frameworks to support the role of

communication training in helping scientists reach their communication and engagement goals This volume reflects the growth of the field and provides direction for developing future researcher practitioner collaborations With contributions from researchers and practitioners from around the world this book will be of great interest to students scholars and professionals within this emerging field **The International Handbook of Positive Psychology** Edward C.

Chang, Christina Downey, Hongfei Yang, Ingo Zettler, Mine Muyan-Yılık, 2022-02-02 This handbook discusses the latest findings from different fields of positive psychology from a global perspective by providing a coherent framework to get a better understanding of the development and practice of positive psychology It starts with the parameters of positive psychology and a summary of the historical rise of positive psychology both first wave and second wave of positive psychology in the US and its slow but steady growth on a global scale This handbook highlights the major contributions of positive psychologists across 17 major regions of the world on theory research assessment and Practice It discusses how positive psychology can progress human living in different countries and it shows the reasons why positive psychology has become an important source in research and education around the world **A scholarly contribution to educational praxis** M.A.

Els, 2016-12-31 This publication contains original research targeting scientific specialists in the field of education through research endeavours grounded on a philosophical basis as well as being embedded in the empirical The research methodology of each chapter emanates from applicable philosophical assumptions in the form of an applicable theoretical and conceptual framework The latter forms a firm basis for the application of sound empiricism The content of this book adds to the body of scholarly knowledge in education In his evaluation of the book Acting Executive Dean Faculty of Education and Training Professor Akpovire Oduaran made the following remarks To a large extent the ideas put together in this book have come from data generated not just from literature found in books and journals but actual interactions with educators and the learning environment So then what the reader is offered in this volume is the articulation of ideas that have been interrogated structured and presented in surprisingly simplistic and yet incisive and academically enriching content that can match the standards of scholarship that is available in the Western World Yet what makes this book so welcome relevant and timely is the fact that it is built around Afrocentric theories and practices such as one may find in imported literature

Bacteriophages, Prophages, and Their Products: Regulating Bacterial Populations Barbara Maciejewska, Agata Dorotkiewicz-Jach, Zuzanna Drulis-Kawa, Gamaliel López-Leal, 2025-06-18 Bacteriophages represent the most abundant biological entities in the biosphere and play a crucial role in controlling the number and biodiversity of bacterial populations Furthermore the majority of bacterial genomes contain bacteriophages in the prophage form ranging from inducible intact prophages over incomplete phage genomes to single moron genes of phage origin The impact of bacteriophages on bacterial

populations both under the lytic or lysogenic cycle within any given environment is characterized by a great degree of complexity. It can be discussed on different ecological levels in the abiotic environment: content, the interactions between phages and their hosts as well as interactions between phages. Prophages influence the genetic diversity of bacteria and expand their phenotypic profile encoding proteins associated with resistance, virulence, defense, and toxicity. Additionally, phage-derived enzymes like lysins or depolymerases of prophage or lytic phage origin which may be released into the environment exert a consequential influence on the natural balance in bacterial ecosystems. Phages and individual recombinant enzymes with antibacterial properties are utilized to modulate bacterial populations. This approach proves relevant in infection treatment, food preservation, and the eradication of bacteria including biofilm from various surfaces. Understanding the evolutionary ecological interactions between bacteria and phages will not only facilitate the application of phage therapy but also enhance the utilization of products derived from phages. In this Research Topic, we welcome Original Research, Reviews, Mini Reviews, Methods, Perspectives, and Opinions in the following areas: Prevalence and ecological significance of bacteriophages influencing bacterial population biodiversity and abundance; The use of bacteriophages and phage enzymes to modulate and eradicate bacteria in various niches including the natural and clinical environment; industries and microbiome; Distribution and characteristics of prophages in terms of bacterial diversity.

Multilingualism and Intercultural Communication H. Ekkehard Wolff, Pamela Maseko, Russell H. Kaschula, Christine Anthonissen, Bassey E. Antia, 2017-05-01. An in-depth look at the changing sociolinguistic dynamics that have influenced South African society. To date, there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro sociolinguistic questions pertaining to language policies and their implementation or non-implementation to micro sociolinguistic observations of actual language use in verbal interaction, mainly in multilingual contexts of Higher Education (HE). There is a gradual move for the study of language and culture to be taught in the context of professional disciplines in which they would be used, for example, Journalism and African languages, Education and African languages, etc. The book caters for this growing market. Because of its multilingual nature, it caters to English and Afrikaans language speakers as well as the Sotho and Nguni language groups – the largest languages in South Africa and also increasingly used in the context of South African Higher Education. It brings together various interlinked disciplines such as Sociolinguistics and Applied Language Studies, Media Studies and Journalism, History and Education, Social and Natural Sciences, Law, Human Language Technology, Music, Intercultural Communication, and Literary Studies. The unique cross-cutting disciplinary features of the book will make it a must-have for twenty-first century South African students and scholars and those interested in applied language issues.

Science Education in Countries Along the Belt & Road Ronghuai Huang, Bing Xin, Ahmed Tlili, Feng Yang, Xiangling

Zhang,Lixin Zhu,Mohamed Jemni,2022-01-18 This book aims to highlight science education in countries along the Belt and Road It consists of 30 chapters divided into three main parts namely Arab and African countries Asian countries and European countries We invited science education experts from 29 Belt and Road countries to introduce the current status of science education in their countries and the new requirements with the rapid evolution of Information Technology The major contributions of this book include 1 Provide the current status of science education in countries along the Belt and Road as well as the requirement for developing and improving science education in these countries 2 Discuss new insights of science education in future years 3 Inspire stakeholders to take effective initiatives to develop science education in countries along the Belt and Road *Ebook: Inquiry into Life* Mader; Windelsp,2016-04-16 Ebook Inquiry into Life **Administrative**

Corpus Juris between Implementation, Reforms and Continuous Developments Spyridon Flogaitis,Cătălin-Silviu Săraru ,2022-08-19 This volume contains the scientific papers presented at the 5th International Conference Contemporary Challenges in Administrative Law from an Interdisciplinary Perspective that was held on 27 May 2022 online on Zoom The conference is organized every year by the Society of Juridical and Administrative Sciences together with the Faculty of Law of the Bucharest University of Economic Studies More information about the conference can be found on the official website www.alpaconference.ro The scientific studies included in this volume are grouped into two chapters I Real and virtual meeting points for contemporary approaches to the study and practice of administrative law and II A rehearsal of some topics of interdisciplinary approaches in administrative sciences This volume is aimed at practitioners researchers students and PhD candidates in juridical and administrative sciences who are interested in recent developments and prospects for development in the field of administrative law and public administration at international and national level The Cnidaria, Past, Present and Future

Stefano Goffredo,Zvy Dubinsky,2016-09-07 This volume presents a broad panorama of the current status of research of invertebrate animals considered belonging to the phylum Cnidaria such as hydra jellyfish sea anemone and coral In this book the Cnidarians are traced from the Earth s primordial oceans to their response to the warming and acidifying oceans Due to the role of corals in the carbon and calcium cycles various aspects of cnidarian calcification are discussed The relation of the Cnidaria with Mankind is approached in accordance with the Editors philosophy of bridging the artificial schism between science arts and Humanities Cnidarians encounters with humans result in a broad spectrum of medical emergencies that are reviewed The final section of the volume is devoted to the role of Hydra and Medusa in mythology and art **Advances in Operations Research Education** Jeroen Beliën,Ana Paula Teixeira,Hans

Application of LC-MS/MS in the Mycotoxins Studies Laura Gámiz-Gracia, Ana M. García-Campaña, Natalia Arroyo-Manzanares, 2020-06-17 Mycotoxins are secondary metabolites produced by the fungi of different species mainly *Aspergillus*, *Fusarium* and *Penicillium* with toxic effects for humans and animals. These mycotoxins can contaminate food and feed. The European Union (EU) has established the maximum permitted or recommended levels for well known mycotoxins in different foodstuffs. However, there are other mycotoxins that are not included in the regulations, the emerging mycotoxins whose toxicity is still not clear and the modified or masked mycotoxins produced as a consequence of a detoxification strategy of the host plant of the fungus or during food processing. These mycotoxins could pose a risk and should also be taken into account. In order to assure consumers' health, analytical methods for the accurate determination of mycotoxins in different food matrices and feeds are required. In this sense, liquid chromatography tandem mass spectrometry (LC-MS/MS) is a powerful tool for their unique identification and quantification. Moreover, the use of high resolution mass spectrometry (HRMS) allows one to identify novel mycotoxins and targeted/untargeted approaches for study. This Special Issue compiles recent applications of LC-MS/MS in mycotoxin studies as well as the development and validation of new analytical methods for their identification and quantification in different food matrices and feed occurrence studies and the biomonitoring of mycotoxins and their metabolites in biological fluids.

Current Trends in Targeted and Non-Targeted Metabolomics in Analytical Toxicology Geraldine M. Dowling, Markus R. Meyer, 2025-06-19 This article collection emphasizes the substantial potential and versatility of metabolomic technologies in clarifying biological mechanisms, discovering biomarkers and distinguishing pathological conditions. Several studies highlighted metabolomics applied to traditional medicine. Metabolomics profiling also effectively contributed to forensic investigations, improving accuracy in estimating post mortem intervals through metabolite time dependency and robustness against external factors like anticoagulants. Furthermore, metabolomic studies elucidated biochemical responses to pharmaceutical agents, illustrated by assessments of colistin induced nephro and neurotoxicity at therapeutic doses. Investigations into metabolic fingerprints provided insights into nutritionally influenced health conditions, obesity related fat distribution and infectious diseases such as pediatric tuberculous meningitis, pinpointing significant biomarkers and metabolic pathways. Finally, advancements in analytical methods, particularly ion mobility and multidimensional chromatography coupled with mass spectrometry, were reviewed, reinforcing their important role and future promise in increasing resolution, sensitivity and interpretability of metabolomic data.

Handbook of Research on Implications of Sustainable Development in Higher Education Meletiadou, Eleni, 2023-02-10 Research in the field of education for sustainable development (ESD) is of growing concern to meet the needs of the diverse student populations in various higher education institutions. People around the world recognize that current economic development trends are not sustainable and that public awareness, education and training are key to moving

society toward sustainability Although ESD continues to grow both in content and pedagogy and its visibility and respect have grown in parallel education officials policymakers educators curriculum developers and others are called upon to rethink education in order to contribute to the achievement of the goals of sustainable development in higher education The Handbook of Research on Implications of Sustainable Development in Higher Education provides insight regarding the implications of ESD for teaching learning and assessment in higher education and demonstrates the value of adopting an ESD lens by broadening and strengthening the evidence base of the impact that this can make for students educators and society as a whole Covering key topics such as assessment globalization and inclusion this reference work is ideal for university leaders administrators policymakers researchers scholars practitioners academicians instructors and students
