Savoie,2022-05-22 Citizens have lost trust in their institutions of public governance In trying to fix the problem presidents and prime ministers have misdiagnosed the patient failing to recognize that government bureaucracies are inseparable from political institutions As a result career officials have become adroit at managing the blame game but much less so at embracing change Donald Savoie looks to the United States Great Britain France and Canada to assess two of the most important challenges confronting governments throughout the Western world the concentration of political power and the changing role of government bureaucracy The four countries have distinct institutions shaped by distinct histories but what

they have in common is a professional non partisan civil service When presidents and prime ministers decide to expand their personal authority national institutions must adjust while bureaucracies grow to fill the gap paradoxically further constricting government efficacy The side effects are universal political power is increasingly centralized Parliament Congress and the National Assembly have been weakened Cabinet has lost standing political parties have been debased and civil services have been knocked off their moorings Reduced responsibility and increased transparency make civil servants slow to take risks and politicians quick to point fingers Government astutely diagnoses the problem of declining trust in government presidents and prime ministers have failed to see that efficacy in government is tied to well performing institutions **White-Collar**

Reform of Finance Charles McDaniel, Jr.,2015-07-16 Efforts to resolve the recent financial crisis have obscured a more deeply rooted financialization crisis that impacts not only the market economy but also the vital civic and moral traditions

that support it This book reveals the cultural influence of finance in reshaping the foundations of American civil society and proposes a return to certain first principles of the Republic to restore the nation s economic vision This book demonstrates how funding concerns and financial incentives revalue faith traditions educational institutions non profit organizations and even the nation s healthcare system in ways that are eroding the diversity of American culture These changes also undermine the ethical framework of both democratic government and the free market system While financial influence has diminished the value of civil society this book proposes that revitalized intermediary institutions still offer the best path forward in restoring the financial sector and more broadly enriching the American competitive ethic toward development of a more virtuous economy The book is written for an academic and professional audience offering a blueprint for the involvement of civil society with government in providing more communally integrated oversight that could contribute to a genuine democratization of finance
