Amy Scarlett,2018-03-18 Drake lives in the clouds desperate to forget the past But then his father finds his weed stash Drake must now take his A Levels at Ashnest College away from bad influences at Horlton High Against command he secretly

continues to smoke and behaves recklessly to gain new friends Now they must face the wrath of their furious victim Trapped in a war to communicate with his father and do the right thing Drake struggles to hold on to what s left of his sanity before a repressed trauma destroys him Intensely immersive Cloud Zero is a punchy and gritty debut Curriculum Martin Robinson,2019-09-20 Martin Robinson s Curriculum Athena versus the machine explores the educational value of a curriculum rooted in the pursuit of wisdom and advocates the enshrinement of such a curriculum as the central concern of an academic institution Rather than being seen as a data driven machine a school should be viewed as a place that enables children to develop thoughtful perspectives on the world through which they can pursue wisdom and be free to join in with the ancient and continuing conversation What is it to be human Teachers need to be liberated from policy led prescription in order to design curricula which bring the subjects being studied rather than the blind pursuit of measurable outcomes to the foreground of the school s teaching and learning agenda In Curriculum Martin Robinson explores how this can be achieved The Machine demands data order and regulation Athena is the goddess of philosophy courage and inspiration An Athena curriculum celebrates wisdom and skills and considers why it seeks to transmit the knowledge that it does In this book Martin examines how we can construct a curriculum that will allow liberal education to flourish Anti gimmick and pro wisdom the principles that he advocates will make a big difference to teachers and pupils lives and will help to ensure that our young adults are better educated Suitable for teachers school leaders and policy makers *Great FE Teaching* Samantha Jones,2022-10-26 Professional learning and development by FE teachers for FE teachers Celebrating great teaching and learning across the UK s most diverse education sector This new title invites you into the minds and classrooms of FE teachers and encourages you to think side by side with them Brings together experienced teachers to profile their practice and share learning Offers a unique view into classrooms and into the practice of experienced teachers Enables readers to observe and reflect on the work of fellow professionals Opens up the discussion of what makes great FE teaching Profiles and highlights the great work and great teachers in FE **Examining Speaking** Lynda Taylor,2011-08-25 An up to date review of the relevant literature on assessing speaking **A Dutiful Boy** Mohsin Zaidi,2020-08-20 WINNER of the Polari First Book Prize 2021 WINNER of the LAMBDA 2021 Literary Award for Best Gay Memoir Biography A Dutiful Boy is Mohsin s personal journey from denial to acceptance a revelatory memoir about the power of love belonging and living every part of your identity Growing up in a devout Muslim household it felt impossible for Mohsin to be gay Unable to be open with his family and with difficult conditions at school he felt his opportunities closing around him Despite the odds Mohsin s perseverance led him to become the first person from his school to attend Oxford University where new experiences and encounters helped him to discover who he truly wanted to be Mohsin was confronted with the biggest decision he would ever make to live the life that was expected of him or to live as his authentic self A Guardian GQ and New Statesman Book of the Year Genuinely inspiring Beautifully written dignified and ultimately redemptive this challenging story abounds with light

and love Attitude An Incredibly important read Jyoti Patel **The Spectator** ,1873 Structure in Language Thomas Berg,2011-01-13 The focus of this book is on structural representations in particular their hierarchicalness and their branching direction and structure sensitivity is argued to be highly variable both within and across languages and consequently an unlikely candidate for a defining property of human language Improving Learning in Secondary Schools Kenneth Ndifor Tangie,2015-09-10 Improving Learning in Secondary Schools brings together in a succinct comprehensive and thought provoking manner several dimensions of classroom assessment feedback in one volume It is based on the principle that students need feedback on their work and conduct at school in order to be able to correct misconceptions and omissions that can render them incapable of making progress and learning in a given subject The book reports on a doctoral study that examined teachers feedback practice and its relation to student learning in secondary schools It presents a critical fine grained classification and analysis of positive neutral and negative feedback categories in teacher talk and writing which could generate a globally applicable typology and theory of classroom feedback For some time now formative assessment generated feedback has been widely recommended for classrooms thanks mainly to compelling research based evidence showing the relative merits of formative assessment types over more traditional summative assessment practices In this book it is suggested that the time has come to depart from such arguments because the mere presence of feedback in teacher talk and writing be it formative or summative is not enough to support learning Feedback like formal and informal instruction and assessment is not mediated in vacuo it is a social process taking place in a social setting conducted by on and for social actors One must also consider the context especially the linguistic and socio cultural environment in which assessment feedback and learning occur but which also acts as a barrier and facilitator to successful feedback provision and uptake This argument should constitute a starting point for reflection debate and research into the effectiveness for learning of classroom assessment feedback Therefore whilst complementing previous work on this subject this book makes significant additions to a very important aspect of school life Primary and secondary school teachers university students academics and researchers as well as educationists and policy makers in the domain of educational assessment will find in it an inseparable companion and resource tool Flying Magazine ,1957-02 *The Life and Death of Secondary Education for All* Richard Pring,2013-05-07 Is there life after death for secondary education This book focuses upon the quality of learning Reform so called too often begins with qualifications examinations institutional provision paths of progression All those are very important but their value lies in the support they give to learners and their learning in its different forms One needs to start with the aims of education and then with what it means to learn practically theoretically morally and with the very many different needs of the learners That is what this book aims to do In so doing it will be both philosophical in analysis and empirical in example So much is happening from down below that goes unrecognised by policy makers But innovations too often get hampered by government interventions by a bureaucratic mentality and by failure to spread good practice The

general argument of the book therefore will be illustrated throughout with detailed references to practical developments in schools colleges the third sector youth work independent training providers and professional bodies across several countries The book builds on Education for All which was based on 14 19 research into secondary education this book transcends the particularities of England and Wales and digs more deeply into those issues which are at the heart of educational controversy policy and practices and which survive the transience of political change and controversy The issues the aims of education standards of performance the consequent vision of learning the role of teachers progression from school to higher or further education and into employment the provision of such education and training and the control of education are by no means confined to the UK or to this day and age Pring identifies similar problems in other countries such as the USA Germany and France and indeed in the Greece of Plato and Aristotle and offers solutions with a comparative perspective It is a critical time Old patterns of education and its provision are less and less suitable for facing the twenty first century The patterns and modes of communication have changed radically in a few years and those changes are quickening in pace The economic context has been transformed affecting the skills and knowledge needed for employment The social world of young people raises fresh demands hopes and fears A global recession has affected young people disproportionately making quality of life and self fulfilment ever more difficult to attain In addressing learning and the learners first and foremost the book will argue for a wider vision of learning and a more varied pattern of provision Old structures must give way to new
