Understanding Rhetoric Eamon M.

Cunningham,2020-01-01 *Understanding Rhetoric* A Guide to Critical Reading and Argumentation is a composition textbook that outlines three essential skills rhetoric argument and source based writing geared towards newcomers and advanced students alike Though comprehensive in its coverage the book s focus is a simple one how to move beyond a gut reaction while reading to an articulation of what is effective and what is not while explicitly answering the most important question of Why This text gets at this central concern in two fundamental ways First the text teaches composition as a cumulative process coaching you how to question challenge and expand on not just the readings you hold in your hands but also how to interrogate the internal processes of writing and thinking The book s blend of composition methods detail the cross point of product and process to turn reading and writing from a matter of coming up with answers to questions to learning what type of questions need to be asked in the first place The right questions the text argues are fundamentally rhetorical in nature Second the content of the practice based chapters is framed into a larger mesh of intellectual history to show how the writing and thinking you are doing today is continuous with a long history of writing instruction that goes back to the ancient world This book provides equal representation from classical and contemporary theory with the recognition that theory cannot be fully grasped without practice and practice cannot be fully understood without its theoretical antecedent After all you can t write outside the box until you know where the box is and what it looks like

The Routledge Handbook of Vegan

Studies Laura Wright,2021-03-31 This wide ranging volume explores the tension between the dietary practice of veganism and the manifestation construction and representation of a vegan identity in today s society Emerging in the early 21st century vegan studies is distinct from more familiar conceptions of animal studies an umbrella term for a three pronged field that gained prominence in the late 1990s and early 2000s consisting of critical animal studies human animal studies and posthumanism While veganism is a consideration of these modes of inquiry it is a decidedly different entity an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience The Routledge Handbook of Vegan Studies is the must have reference for the important topics problems and key debates in the subject area and is the first of its kind Comprising over 30 chapters by a team of international contributors this handbook is divided into five parts History of vegan studies Vegan studies in the disciplines Theoretical intersections Contemporary media entanglements Veganism around the world These sections contextualize veganism beyond its status as a dietary choice situating veganism within broader social ethical legal theoretical and artistic discourses This book will be essential reading for students and researchers of vegan studies animal studies and environmental ethics

Rhetorical Machines John

Jones,Lavinia Hirsu,2019-07-02 A landmark volume that explores the interconnected nature of technologies and rhetorical practice *Rhetorical Machines* addresses new approaches to studying computational processes within the growing field of digital rhetoric While computational code is often seen as value neutral and mechanical this volume explores the underlying

and often unexamined modes of persuasion this code engages In so doing it argues that computation is in fact rife with the values of those who create it and thus has powerful ethical and moral implications From Socrates s critique of writing in Plato s Phaedrus to emerging new media and internet culture the scholars assembled here provide insight into how computation and rhetoric work together to produce social and cultural effects This multidisciplinary volume features contributions from scholar practitioners across the fields of rhetoric computer science and writing studies It is divided into four main sections Emergent Machines examines how technologies and algorithms are framed and entangled in rhetorical processes Operational Codes explores how computational processes are used to achieve rhetorical ends Ethical Decisions and Moral Protocols considers the ethical implications involved in designing software and that software s impact on computational culture and the final section includes two scholars responses to the preceding chapters Three of the sections are prefaced by brief conversations with chatbots autonomous computational agents addressing some of the primary questions raised in each section At the heart of these essays is a call for emerging and established scholars in a vast array of fields to reach interdisciplinary understandings of human machine interactions This innovative work will be valuable to scholars and students in a variety of disciplines including but not limited to rhetoric computer science writing studies and the digital humanities
