related texts promotes engagement and improves reading comprehension and content learning This practical guide explains how to select and teach a wide range of picture books as paired text two books related by topic theme or genre in grades K 8 The author provides mini lessons across the content areas along with hundreds of recommendations for paired text each linked to specific Common Core standards for reading literature and informational texts In a large size format for easy photocopying the book includes 22 reproducible graphic organizers and other useful tools Purchasers also get access to a Web page where they can download and print the reproducible materials

Balancing Reading & Language Learning Mary Cappellini, 2005 Combining the best classroom practices and research on teaching reading and language acquisition Mary Cappellini integrates effective reading instruction with effective language instruction Through the framework of a balanced reading program she emphasizes the importance of constantly listening for and assessing children s language and reading strategies during read aloud shared reading guided reading and independent reading including literature circles

BOOK JACKET Teaching Mathematics in Elementary and Middle School Joseph G. R. Martinez, Nancy Conrad Martinez, 2007 With an emphasis on inquiry and process Teaching Mathematics in Elementary and Middle School embraces active mathematics instruction and the development of mathematical thinking through problem solving The text challenges future teachers to prepare their K 8 students for a world that requires a higher level of mathematical literacy and enables them to compete in a global society Teachers will develop their own mathematical abilities allowing them to help students discover a rich combination of thinking processes and problem solving strategies raising the learning expectations for all Unique text features TIE Thought Investigation and Exploration features ask pre service teachers to develop their own thinking and learning abilities preparing them to better challenge their students Mathematics in the Real World Idea Files and Teacher Profiles model best practices and supply readers with concrete teaching tools and strategies Mathematical Thinking Mathematical Games and Mathematics and Technology features detail activities to engage and develop students mathematical thinking Accompanying student artifacts illustrate the progression of students conceptual understanding CD logo replaces bullet Math Activities CD ROM provides an outstanding text component containing more than 100 activities that use a three step process explore invent discover to foster the development of mathematical thinking through guided inquiry Aligned with the NCTM standards each activity is integrated within the text and designed to help develop students conceptual understanding of mathematics Mathematics in Literature offers thoroughly developed ideas for using children s literature to create meaningful contexts for mathematics learning An extensive bibliography that can be used for this purpose appears on the CD Rom I think the text is an excellent resource for elementary and middle school methods courses In particular I like how the textbook handles the bigger issues such as geometric reasoning rather than just geometry I also like the excellent foundation in educational research that the textbook provides as well as some very careful attention and consistent referencing to the NCTM standards and principles The incorporation of classroom vignettes teacher illustrations

and samples of student work also all add to the excellent grounding of the text in real world classroom work Dr Neal
