Heberle, Victoria Grace, 2009-09-11 Examining sexual violence the authors of this volume take up questions about the relationship between sex sexuality and violence to better understand the terms on which women s sexual suffering is perpetuated thereby undermining their capacity for personhood and autonomy **Understanding Judith Butler** Anita Brady, Tony Schirato, 2010-11-11 A rather perfect textbook at the right level It opens up issues of transgender very well and is critical in just the right tone Much needed in media and cultural studies Angela McRobbie Goldsmiths Acknowledged as one of the most influential thinkers of modern times an understanding of Judith Butler s work is ever more essential to an understanding of not just the landscape of cultural and critical theory but of the world around us Understanding Judith Butler however can be perceived as a complex and difficult undertaking It needn t be Using contemporary and topical examples from the media popular culture and everyday life this lively and accessible introduction shows you how the issues concepts and theories in Butler s work function as socio cultural practices Giving due consideration to Butler s earlier and most recent work and showing how her ideas on subjectivity gender sexuality and language overlap and interrelate this book will give you a better understanding not only of Butler s work but of its applications to modern day social and cultural practices and contexts **Histories of Violence** Brad Evans, Terrell Carver, 2017-01-15 While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples violence continues to be deployed for various political and social ends Yet the problem of violence still defies neat description subject to many competing interpretations Histories of Violence offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures from Hannah Arendt to Frantz Fanon Michel Foucault to Slavoj i ek who continue to influence and inform contemporary political philosophical sociological cultural and anthropological study Written by a team of internationally renowned experts this is an essential interrogation of post war critical thought as it relates to violence **Grounds for Respect** Kristi Giselsson, 2012-01-01 Grounds for Respect broaches a question that is of vital importance to all namely what grounds do we need in order to justify respect for others In exploring this question the author provides not only a critical overview of traditional and contemporary approaches to and critiques of the concept of a common humanity but also offers a

distinctively new approach as to what it might mean to be human *Queering Multiculturalism* Aret Karademir,2018-09-15

Queering Multiculturalism argues for group specific rights for ethno cultural minorities but without ignoring that such rights may lead to ethnic chauvinism balkanization and the cultural marginalization of minorities within minorities such as ethnic LGBT people Thus it aims to construct a liberal theory of minority rights to accommodate ethno cultural diversity without destroying ethno sexual diversity and without privileging one type of minority group over another Thinking with Theory in Qualitative Research Alecia Youngblood Jackson,Lisa Mazzei,2011-12-02 Winner of the 2013 American Educational Studies Association s Critics Choice Award Thinking With Theory In Qualitative Research shows how to use various philosophical concepts in practices of inquiry effectively opening up the process of data analysis in qualitative research It uses a common data set and utilizes various theoretical perspectives **Introducing a Hermeneutics of Cispicion** Jo Henderson-Merrygold,2024-06-13 A hermeneutics of cispicion challenges cisnormative presuppositions that shape and at times occlude the variations in gender and sex exhibited by key characters in the ancestral narrative of Genesis 12 50 It charts the progression from Paul Ricoeur s hermeneutics of suspicion through liberation feminist and queer approaches Focusing on Deryn Guest s queer and trans hermeneutics Henderson Merrygold then offers a new strategy for reading against fixed binary gender assumptions where a character s sex always matches that assigned at birth The initial case study addresses Sarah who is the proto matriarch of the ancestral narratives in Genesis Masculinities contrast with femininities and Sarah s own agency makes the picture of a consistent gender hard to identify By closely reading the text different facets of Sarah s story emerge to emphasise how much the narrative directs the reader towards a cisnormative reading However Henderson Merrygold shows it is not only the images of Sarah as feminine woman and mother that remain visible The subject of the second case study Esau is regularly judged to be a hypermasculine character due to his bodily appearance but repeatedly fails to fulfil the expectations related to that appearance Though often condemned as a poor example of hyper masculinity a cispicious reading identifies a richer and more nuanced figure Attending to Esau s actions his rejection of the gendered expectations appears intentional allowing him to settle more comfortably into his own identity This project advocates for and demonstrates the value of creative interpretations of biblical texts that challenge both malestream and feminist gender assumptions Judith Butler and Political Theory Samuel Chambers,Terrell Carver,2008-01-23 Over the past twenty five years the work of Judith Butler has had an extraordinary impact on numerous disciplines and interdisciplinary projects across the humanities and social sciences This original study is the first to take a thematic approach to Butler as a political thinker Starting with an explanation of her terms of analysis Judith Butler and Political Theory develops Butler s theory of the political through an exploration of her politics of troubling given categories and approaches By developing concepts such as normative violence and subversion and by elaborating her critique of heteronormativity this book moves deftly between Butler s earliest and most famous writings on gender and her more recent

interventions in post 9 11 politics This book along with its companion volume Judith Butler s Precarious Politics marks an intellectual event for political theory with major implications for feminism women s studies gender studies cultural studies lesbian and gay studies queer theory and anyone with a critical interest in contemporary American great power politics

Metaphysics and Gender: The Normative Art of Nature and Its Human Imitations Michele Schumacher,2023-03-07 The emergent science of transgenderism and related philosophies of gender propose a full scale inversion of the understanding of God man and the created order articulated in classical metaphysics undermining and parodying both the causality and ontology voiced by Genesis 1 27 God created man in His own image male and female He created them Whether through subversive performative identity or by surgical sex change the divinely made human person is now threatened with abolition and replacement by the self made man and the man made woman In *Metaphysics and Gender* Michele M Schumacher offers a corrective to this distorted and distorting outlook calling for the recovery of an anthropological vision rooted in recognition of the normative divine art of nature and of the likeness and far greater unlikeness between divine and human causality Surveying contemporary transgender trends Schumacher identifies and excavates their conceptual and ideological foundations in the gender theory of Judith Butler the existentialist feminism of Simone de Beauvoir and the atheistic existentialism of Jean Paul Sartre To the erroneous philosophical presuppositions of these thinkers Schumacher contrasts the metaphysically grounded thought of Aristotle and Thomas Aquinas advancing their positive account of the good of creation and of the meaning of ethical norms human freedom and natural inclinations and embodiment and mounting a timely and trenchant defense of the divinely created human person

Cloud of the Impossible Catherine Keller,2014-12-02 The experience of the impossible churns up in our epoch whenever a collective dream turns to trauma politically sexually economically and with a certain ultimacy ecologically Out of an ancient theological lineage the figure of the cloud comes to convey possibility in the face of the impossible An old mystical nonknowing of God now hosts a current knowledge of uncertainty of indeterminate and interdependent outcomes possibly catastrophic Yet the connectivity and collectivity of social movements of the fragile unlikely webs of an alternative notion of existence keep materializing a haunting hope densely entangled suggesting a more convivial relational world Catherine Keller brings process feminist and ecopolitical theologies into transdisciplinary conversation with continental philosophy the quantum entanglements of a participatory universe and the writings of Nicholas of Cusa Walt Whitman A N Whitehead Gilles Deleuze and Judith Butler to develop a theopoetics of nonseparable difference Global movements personal embroilments religious diversity the inextricable relations of humans and nonhumans these phenomena in their unsettling togetherness are exceeding our capacity to know and manage By staging a series of encounters between the nonseparable and the unknowable Keller shows what can be born from our cloudiest entanglement

The Government of Desire Miguel de Beistegui,2018-05-04 Liberalism Miguel de Beistegui argues in *The Government of Desire* is best described as a technique of government directed towards the self with

desire as its central mechanism Whether as economic interest sexual drive or the basic longing for recognition desire is accepted as a core component of our modern self identities and something we ought to cultivate But this has not been true in all times and all places For centuries as far back as late antiquity and early Christianity philosophers believed that desire was an impulse that needed to be suppressed in order for the good life whether personal or collective ethical or political to flourish Though we now take it for granted desire as a constitutive dimension of human nature and a positive force required a radical transformation which coincided with the emergence of liberalism By critically exploring Foucault's claim that Western civilization is a civilization of desire de Beistegui crafts a provocative and original genealogy of this shift in thinking He shows how the relationship between identity desire and government has been harnessed and transformed in the modern world shaping our relations with others and ourselves and establishing desire as an essential driving force for the constitution of a new and better social order But is it The Government of Desire argues that this is precisely what a contemporary politics of resistance must seek to overcome By questioning the supposed universality of a politics based on recognition and the economic satisfaction of desire de Beistegui raises the crucial question of how we can manage to be less governed today and explores contemporary forms of counter conduct Drawing on a host of thinkers from philosophy political theory and psychoanalysis and concluding with a call for a sovereign and anarchic form of desire The Government of Desire is a groundbreaking account of our freedom and unfreedom of what makes us both governed and ungovernable *Thinking the body as a basis, provocation and burden of life* Gert Melville, Carlos Ruta, 2015-08-31 The body is at the same time a place where we express duration and or discontinuity in history a witness of radical social changes and a factor of stabilization but also of the transformation of human life and therefore an eminent challenge for every human being This book will contribute in a decisively interdisciplinary and cross cultural way to a better understanding of the place role and connection of the body within social political and cultural shifts *Theopoetics and Religious Difference* Marius van Hoogstraten, 2020-09-30 Why are interreligious encounters and relations both more troubling and more promising than typically assumed and how can this be embraced In engaging the contemporary theological discourse of theopoetics Marius van Hoogstraten offers a way of approaching religious difference that while perhaps unusual to readers familiar with more conventional theology may be especially fitting for this age Provided by publisher [Controversies in Feminist Theologies](#) Lisa Isherwood, Marcella Althaus-Reid, 2013-02-12 *Controversies in Feminist Theologies* is a clear and accessible analysis of the current controversies within feminist theologies It uses many of the themes of systematic theology to examine whether feminist theology has a future or whether its discourse and praxis has become bankrupt The authors expand this question through an examination of whether the whole project of systematic theology has become outmoded The book is the first to expose the myth of homogeneity and some of the common stereotypes and myths surrounding Feminist Theologies from a methodological and thematic perspective It addresses current stereotypes built around North Atlantic and Third World feminist theology

including issues concerning Mariology the use of the Bible and the centrality of women's experiences in feminist praxis while highlighting the richness of different and at times opposite positions in the debates of theology gender and sexuality

Geographies of Identity Jill Darling, 2021 *Geographies of Identity Narrative Forms Feminist Futures* explores identity and American culture through hybrid prose work by women and expands the strategies of cultural poetics practices into the study of innovative narrative writing Informed by Judith Butler Homi Bhabha Harryette Mullen Julia Kristeva and others this project further considers feminist identity politics race and ethnicity as cultural content in and through poetic and non narrative forms The texts reflected on here explore literal and figurative landscapes linguistic and cultural geographies sexual borders and spatial topographies Ultimately they offer non prescriptive models that go beyond expectations for narrative forms and create textual webs that reflect the diverse realities of multi ethnic multi oriented multi linguistic cultural experiences Readings of Gertrude Stein's *A Geographical History of America* Renee Gladman's *Juice* Pamela Lu's *Pamela A Novel* Claudia Rankine's *Don't Let Me Be Lonely* Juliana Spahr's *The Transformation* Theresa Hak Kyung Cha's *Dict e* Gloria Anzald'a's *Borderlands La Frontera* and Layli Long Soldier's *WHEREAS* show how alternatively narrative modes of writing can expand access to representation means of identification and subjective agency and point to horizons of possibility for new futures These texts critique essentializing practices in which subjects are defined by specific identity categories and offer complicated contextualized and historical understandings of identity formation through the textual weaving of form and content
