Underestimated Book One English Edition:

Repressed, Remitted, Rejected Dr. Karl Heinz Roth, Hartmut Rübner, 2021-12-10 Since unification the Federal Republic of Germany has made vaunted efforts to make amends for the crimes of the Third Reich Yet it remains the case that the demands for restitution by many countries that were occupied during the Second World War are unresolved and recent demands from Greece and Poland have only reignited old debates This book reconstructs the German occupation of Poland and Greece and gives a thorough accounting of these debates Working from the perspective of international law it deepens the scholarly discourse around the issue clarifying the never ending story of German reparations policy and making a principled call for further action A compilation of primary sources comprising 125 annotated key texts 512 pages on the complexity of reparations discussions covering the period between 1941 and the end of 2017 is available for free on the Berghahn Books website doi 10 3167 9781800732575 dd Vernacular Literary Theory in the Middle Ages Walter

Haug, 1997-03-06 The first edition of this book appeared in German in 1985 and set a new agenda for the study of medieval literary theory Rather than seeing vernacular writers reflections on their art such as are found in prologues epilogues and interpolations in literary texts as merely deriving from established Latin traditions Walter Haug shows that they marked the gradual emancipation of an independent vernacular poetics that went hand in hand with changing narrative forms While focussing primarily on medieval German writers Haug also takes into account French literature of the same period and the principles underlying his argument are equally relevant to medieval literature in English or any other European language This ground breaking study is now available in English for the first time **Perry Rhodan NEO: Volume 3 (English**
