professional and personal lives Skinner argues that everyone has a mountain to climb whether it's meeting your annual sales target or launching a new product or getting your department to improve its teamwork And he stresses that you should set your goals even higher than you normally would and constantly look beyond the current summit to the next one For instance instead of aiming for 10 percent revenue growth go after a seemingly impossible 50 percent target and then think of new ways to get there In both rock climbing and business you must define your exact mission assemble the right team make the critical transition from preparation to action have courage when crossing difficult terrain and weather the storms well Skinner offers fresh insights into all of these topics and explains principles such as how you think is more important than what you know pick teammates for what they will do not what they have already done make decisions in answer to the mountain fall toward the summit see each challenge as part of a bigger picture your lifelong ascent Beyond the Summit presents fresh and inspiring advice on leadership teamwork and decision making skills combined with an epic adventure tale
