Reports on Refugee Aid, 1981 *Kyaka 2 Refugee Settlement*, 1985 Afghanistan Investment and Business Guide
Volume 1 Strategic and Practical Information IBP, Inc., 2015-09-11 Afghanistan Investment and Business Guide Volume 1
Strategic and Practical Information *Protection by Persuasion* Alexander Betts, 2011-02-23 States located near crisis zones
are most likely to see an influx of people fleeing from manmade disasters African states for instance are forced to
accommodate and adjust to refugees more often than do European states far away from sites of upheaval Geography dictates
that states least able to pay the costs associated with refugees are those most likely to have them cross their borders
Therefore refugee protection has historically been characterized by a North South impasse While Southern states have had
to open their borders to refugees fleeing conflict or human rights abuses in neighboring states Northern states have had little
obligation or incentive to contribute to protecting refugees in the South In recent years however the Office of the United
Nations High Commissioner for Refugees UNHCR has sought to foster greater international cooperation within the global
refugee regime through special conferences at which Northern states are pushed to contribute to the costs of protection for
refugees in the South These initiatives Alexander Betts finds in *Protection by Persuasion* can overcome the North South
impasse and lead to significant cooperation Betts shows that Northern states will contribute to such efforts when they
recognize a substantive relationship between refugee protection in the South and their own interests in such issues as
security immigration and trade Highlighting the mechanisms through which UNHCR has been able to persuade Northern
states that such links exist *Protection by Persuasion* makes clear that refugee protection is a global concern most effectively
addressed when geographic realities are overridden by the perception of interdependence **Gender, Peacebuilding, and**
Reconstruction Caroline Sweetman, 2005 This collection of articles explores conflict prevention through development
projects in places where resources are scarce and age old agreements between groups come under strain Humanitarian
Logistics Graham Heaslip, Peter Tatham, 2022-12-03 In rapidly developing emergencies it is vital for aid agencies to
understand how to establish an agile supply chain that resists the chaos of a crisis and can cater to unknown needs Now in
its fourth edition *Humanitarian Logistics* presents chapters from a wide range of academics and practitioners and offers
cutting edge research into how complex problems such as distribution of the COVID 19 vaccine and provision of relief to
victims of natural disasters can be solved New chapters cover topics such as cash based humanitarian logistics HL systems
sustainability in a HL context and providing logistics services for humanitarian relief In recent years a number of global
crises have highlighted the critical role that logistics plays in humanitarian response There is a vital need to understand how
to conduct operations in confused and swiftly changing environments This book is essential reading for anyone who needs to
understand how to effectively manage supply networks during a rapidly developing emergency **Voluntary Funds**

for Refugees,2008 **In Search of Cool Ground** Tim Allen,1996 Concentrates attention on crucial issues which have been largely ignored and must become key aspects of assistance programs in war torn areas of the Horn of Africa **People Forced to Flee** United Nations High Commissioner for Refugees,2022-02-16 People in danger have received protection in communities beyond their own from the earliest times of recorded history The causes war conflict violence persecution natural disasters and climate change are as familiar to readers of the news as to students of the past It is 70 years since nations in the wake of World War II drew up the landmark 1951 Convention relating to the Status of Refugees People Forced to Flee marks this milestone It is the latest in a long line of publications stretching back to 1993 that were previously entitled The State of the World s Refugees The book traces the historic path that led to the 1951 Convention showing how history was made by taking the centuries old ideals of safety and solutions for refugees to global practice It maps its progress during which international protection has reached a much broader group of people than initially envisaged It examines international responses to forced displacement within borders as well as beyond them and the protection principles that apply to both It reviews where they have been used with consistency and success and where they have not At times the strength and resolve of the international community seems strong yet solutions and meaningful solidarity are often elusive Taking stock today at this important anniversary is all the more crucial as the world faces increasing forced displacement Most is experienced in low and middle income countries and persists for generations People forced to flee face barriers to improving their lives contributing to the communities in which they live and realizing solutions Everywhere an effective response depends on the commitment to international cooperation set down in the 1951 Convention a vision often compromised by efforts to minimize responsibilities There is growing recognition that doing better is a global imperative Humanitarian and development action has the potential to be transformational especially when grounded in the local context People Forced to Flee examines how and where increased development investments in education health and economic inclusion are helping to improve socioeconomic opportunities both for forcibly displaced persons and their hosts In 2018 the international community reached a Global Compact on Refugees for more equitable and sustainable responses It is receiving deeper support People Forced to Flee looks at whether that is enough for what could and should help define the next 70 years **Rights in Exile** Guglielmo Verdirame,Barbara E. Harrell-Bond,2005 Of the estimated 12 million refugees in the world more than 7 million have been confined to camps effectively warehoused in some cases for 10 years or more Holding refugees in camps was anathema to the founders of the refugee protection regime Today with most refugees encamped in the less developed parts of the world the humanitarian apparatus has been transformed into a custodial regime for innocent people Based on rich ethnographic data Rights in Exile exposes the gap between human rights norms and the mandates of international organisations on the one hand and the reality on the ground on the other It will be of wide interest to social scientists and to human rights and international law scholars Policy makers donor governments and humanitarian organizations especially those adopting a

rights based approach will also find it an invaluable resource But it is the refugees themselves who could benefit the most if these actors absorb its lessons and apply them

Refugee Economies Alexander Betts, Louise Bloom, Josiah David Kaplan, Naohiko Omata, 2017 This book explores the economic lives of refugees It looks at what shapes the production consumption finance and exchange activities of refugees to explain variation in economic outcomes for refugees themselves

Disability and Aid Maria-Theres Schuler, 2023-11-07 The open access publication of this book has been published with the support of the Swiss National Science Foundation Winner of the Public Anthropologist Award 2024 Public Anthropologist Award 2024 At a time when rights are increasingly placed on the humanitarian agenda this book provides a unique ethnographic account of the dynamics of aid to disabled people in a Ugandan refugee camp By unraveling the complexities of social material and institutional interdependencies the author invites us to rethink conventional notions of dependence and vulnerability Exploring issues of personhood as they relate to the exchange of material goods and care the book offers a thought provoking perspective on the seemingly promising shift towards a rights based approach A compelling read for anyone seeking to reshape the humanitarian agenda

Forced Displacement and NGOs in Asia and the Pacific Gül İnanç, Themba Lewis, 2022-01-25 This volume presents a comprehensive survey of the dynamics of conflict and climate induced forced displacement and organisational response across Asia and the Pacific The Asia Pacific region hosts some of the largest numbers of displaced people on the planet with some of the fewest protections available and sparse frameworks for advancing rights livelihood and policy The region maintains the lowest number of signatory states to international refugee protection covenants and the majority of national protection and support systems are ad hoc precarious and unpredictable Civil society has very often filled in the gaps but with the rise of nationalist rhetoric civil society space has been shrinking Drawing upon the expertise of academics practitioners historians theorists policy makers political scientists economists and the voices of affected communities across the region this book examines both key case studies and larger regional trends This book is a valuable resource for scholars and practitioners looking to understand the complexities of responses to refugees and forced migrants in the Asia Pacific Region

Humanitarian Assistance for Displaced Persons from Myanmar Premjai Vungsiriphisal, Dares Chusri, Supang Chantavanich, 2013-11-23 This book is one of four volumes on a major empirical migration study by leading Thai migration specialists from Chulalongkorn University Bangkok for the United Nations Development Programme UNDP This volume examines the protracted refugee situation at the Thai Myanmar border Displaced persons are kept in closed settlements and this has limited their self reliance A resettlement program has been implemented and many refugees have been accepted in resettlement countries Repatriation is not recommended as a durable solution unless Myanmar becomes a safe place for return Funding and intervention policies of international organizations and NGOs vary Donors prefer to switch humanitarian assistance to development aid The book provides realistic policy recommendations for a durable solution for refugees at the borders Practitioners and policymakers from governments
