Literacy and Mothering Robert A. LeVine, 2012-01-27 Women s schooling is strongly related to child survival and other outcomes beneficial to children throughout the developing world but the reasons behind these statistical connections have been unclear In *Literacy and Mothering* the authors show for the first time how communicative change plays a key role Girls acquire academic literacy skills even in low quality schools which enable them as mothers to understand public health messages in the mass media and to navigate bureaucratic health services effectively reducing risks to their children s health With the acquisition of academic literacy their health literacy and health navigation skills are enhanced thereby reducing risks to children and altering interactions between mother and child Assessments of these maternal skills in four diverse countries Mexico Nepal Venezuela and Zambia support this model and are presented in the book Chapter 1 provides a brief history of mass schooling including the development of a bureaucratic Western form of schooling Along with the bureaucratic organization of healthcare services and other institutions this form of mass schooling spread across the globe setting new standards for effective communication standards that are in effect taught in school Chapter 2 reviews the demographic and epidemiological evidence concerning the effects of mothers education on survival health and fertility In this chapter the authors propose a model that shows how women s schooling together with urbanization and changes in income and social status reduce child mortality and improve health In Chapter 3 the authors examine the concept of literacy and discuss how its meanings and measurements have been changed by educational research of the last few decades Chapter 4 introduces the four country study of maternal literacy Chapters 5 6 and 7 present the findings focusing on academic literacy and its retention Chapter 5 its impact on maternal health literacy and navigation skills Chapter 6 and changes in mother child

interaction and child literacy skills Chapter 7 Chapter 8 presents a new analysis of school experience explores policy implications and recommends further research

Learning from Global Food and Nutrition Insecurity

Rafael Perez-Escamilla, Amos Laar, Susan Vorkoper, 2024-11-06 As access to healthy nutritious and safe food becomes increasingly unreliable especially among low income groups research on food insecurity is of critical importance both domestically and abroad Scientists around the world are leading the way in testing innovative public health and policy strategies to address the reasons behind this trend and develop policies and effective interventions and programs Despite recognising the global impact of food and nutrition insecurity efforts to address it are often siloed and fractured Sharing research strategies and proven methods among researchers worldwide can help identify common ground and lessons learned for the adaptation and implementation of evidence informed food and nutrition security interventions
