as well as the other cartridges offered to the police model. It had a nickel barrel and aluminum was right. In October 1975 the original frames were replaced with those made "C," which was made of steel. The original frames had been the only thing we could not, after 1975, the chambers were changed to protect the frame. These 25,000 were built.

Police Positive 38 S&W

Note that a .22 caliber Police Positive chambered for the .22 short and long cartridge was in use until about 1960. Several such revolvers were sold to the London Army in the configuration during the late 1920s. A 38 S&W example recently sold for \$1,200.

POLICE POSITIVE SPECIAL

This model, built from 1917 to 1975, is very similar to the Police Positive. The frame is a heavy model "D," this was the first small frame using cylinder revolvers to be made for a powerful cartridge and became a very popular police weapon. It has a slightly larger frame to accept the larger cylinder needed to chamber more powerful cartridges such as the .32-S&W and .38 Special, in addition to the original chamberings. Barrel lengths

"Police Positive Special" - A 1960 production, 38 Special, 4 inch Police Positive Special round at 2000, plus condition. Includes in the correct box but no manual. Asking \$485."

POLICE POSITIVE SPECIAL MARK V

Introduced in 1994, this is an updated version of the Police Positive Special. This model features a 4-inch barrel with underlug and rubber grips and fixed sights. The butt is rounded. The revolver is rated to fire .38 caliber +P rounds. The overall length is 9 inches and weighs approximately 30 oz.

Colt Agent

BORDER PATROL

This model is quite rare, as Colt manufactured only 400 of them in 1962. It is basically a Police Special with a heavy duty 4 inch barrel. It is chambered for the .38 Special and was built to be very strong and resistant to rough treatment, what you might expect on the U.S. border with Mexico. The finish is blued and serial numbered in the 400,000 range.

AGENT 38 S&W

This revolver is basically the same as the 1st issue Colt with a shortened grip frame or "short butt." This was done to make the Agent more concealable. Colt built the Agent 1st issue from 1955 until 1975.

NOTE: The following advertisement appeared in *Gunbroker.com* in March of 2007:

"Agent - Nice and ready with a 2-inch barrel and chambering for .38 Special. 6 shot. No cracks or dents. Asking \$429."

AGENT 1.9. 2ND ISSUE

This is a streamlined version with the standard ejector rod. In the last four years of its production, it was more finished. Colt manufactured this model between 1975 and 1980.

AIRCRAFTMAN

This model was specially fabricated for U.S. Air Force pilots who carried it for personal protection. As it is, it is extremely lightweight because both the frame and the cylinder are made of aluminum alloy. It has a short, easily manageable 2-inch barrel and is chambered for a distinctive .38 Special "343" military cartridge with a chamber pressure of 36,000 pounds per square inch. The finish is blued, with checkered walnut grip. There were approximately 1,200 manufactured in 1975 and they are marked "U.S." or "A.F." for serial numbers #1 through #1189. (Note: Some disagreement as to whether this model is properly called "Aircraftman" or "Air Crewman." We have used the former here, appears on the barrel roll-wrapping.)
