Doctoring Dying Angela Smith, 2013-10-21
Doctoring Dying is a cautionary tale for anybody with assets and a family or government that wants you to sign over those assets before you are dead It highlights the perils of signing away decision making rights through EPAs EPGs and AHDs or Living Wills Doctoring Dying summarises the inappropriate capacity assessment process routinely undertaken by doctors and which the Western Australian State Administrative Tribunal SAT steadfastly relies upon when making a ruling as to whether someone does or doesn't have capacity to make decisions for themselves And if SAT gets it wrong which routinely happens the disempowered victim can look forward to joining the ranks of similar victims whose entire lives have been ruined Attempt to protest your innocence or capacity and you can expect to be declared as exhibiting behavioural symptoms of dementia and end up chemically restrained in a locked ward

Choca,Eric J. Van Denburg,2013-10-28 First published in 1996 The revised and expanded third edition of the Manual for Clinical Psychology Trainees is directed primarily to graduate psychology students although it will prove valuable for everyone involved in patient care This book presents easily understood brief guidelines for each step in the provision of psycho logical services The authors do not attempt to document every possible approach to every potential issue instead their goal is to clear a path through a complex and multilayered field By targeting the discussion in this way the format allows for the provision of actual methods that work thus enabling the newcomer to accomplish a variety of clinical tasks The authors draw upon their extensive firsthand experience in training to offer essential guidelines for effective clinical work This concise easy to use edition has been thoroughly updated to take into account the numerous advances that have occurred in the field since the previous edition was published in 1988 New to this edition are chapters addressing supervision in clinical psychology and research in a practicum setting Plentiful examples of the interviews reports and records that the practitioner is called upon to conduct or compile are included throughout the text In addition there are

extensive tables detailing various syndromes as well as tests and classes of medication

Principles of Assessment and Outcome Measurement for Occupational Therapists and Physiotherapists Alison Laver Fawcett, 2013-03-15 This textbook on assessment and outcome measurement is written for both occupational therapy and physiotherapy students and qualified therapists. It begins by defining what is meant by assessment, outcome evaluation and measurement and discussing the complexity of therapy assessment and measurement including the challenge of measuring human behaviour and the impact of factors such as task demand and context including the environment. Methods of data collection e.g. observation, interview, standardised testing and sources e.g. self-report proxy for collecting information about clients are then reviewed and the main purposes of assessment e.g. descriptive, evaluative, predictive, discriminative presented. The book then addresses the topics of standardisation, levels of measurement, reliability, validity and clinical utility. There is a chapter describing and applying models for categorizing levels of function to aid assessment and measurement. The concept of clinical reasoning and reflective practice is then explored. Application of principles is supported through detailed case studies and worksheets and the criteria for test critique and guidelines for choosing a particular assessment approach are discussed.
