Copycat Cookbook Gordon Ripert, 2021-04-08 Would you like to eat your favorite restaurant recipes at home saving time and money Are you tired of paying overpriced meals and waiting hours in queue at the restaurant Well just keep reading

and you'll start cooking like a restaurant chef before you know it. Everyone likes to dine out every once in a while: a date night with a significant other, a family dinner at a nice restaurant, lunch out or coffee with friends at a local café or even a quick drive-by at a favorite fast-food place. There's just something about eating out that, whether alone or with company, which makes eating all the more enjoyable. Maybe you think that you'll never be able to recreate the food you order at Outback Steakhouse, Starbucks or McDonald's. So you go in there, wait in line for what seems like an eternity, and then pay for food that you know is way overpriced. But what if you didn't have to go through all that? What if you could be munching on a Cinnabon you made right in your own home? Maybe you already know that copycat recipes can taste very similar to the restaurant recipes. But you need to be careful if you really want to replicate your favorite original restaurant specials at home: you must make sure that you are following clear, detailed and trustworthy instructions. BUT DON'T WORRY: all you have to do is to follow the teaching of this book. There is a wide range of FOOD CATEGORIES: breakfast, appetizers, salads, side dishes, mains, burgers, desserts, drinks, and much more. Inside you will discover Secret Recipes from over 10 FAMOUS RESTAURANTS or FAST FOOD such as Bob Evans, Cracker Barrel, Olive Garden, Applebee's, PF Chang's and McDonald's Cheesecake Factory, Subway, Krispy Kreme and much more. Hooked Michael Moss, 2021-03-02 NEW YORK TIMES BESTSELLER. From the author of *Salt Sugar Fat* comes a gripping *The Wall Street Journal* exposé of how the processed food industry exploits our evolutionary instincts, the emotions we associate with food, and legal loopholes in their pursuit of profit over public health. The processed food industry has managed to avoid being lumped in with Big Tobacco, which is why Michael Moss's new book is so important. Charles Duhigg, author of *The Power of Habit*: Everyone knows how hard it can be to maintain a healthy diet. But what if some of the decisions we make about what to eat are beyond our control? Is it possible that food is addictive like drugs or alcohol? And to what extent does the food industry know or care about these vulnerabilities? In *Hooked*, Pulitzer Prize-winning investigative reporter Michael Moss sets out to answer these questions and to find the true peril in our food. Moss uses the latest research on addiction to uncover what the scientific and medical communities, as well as food manufacturers, already know: that food, in some cases, is even more addictive than alcohol, cigarettes, and drugs. Our bodies are hardwired for sweets, so food giants have developed fifty-six types of sugar to add to their products, creating in us the expectation that everything should be cloying: we've evolved to prefer fast, convenient meals, hence our modern-day preference for ready-to-eat foods. Moss goes on to show how the processed food industry, including major companies like Nestlé, Mars, and Kellogg's, has tried not only to evade this troubling discovery about the addictiveness of food but to actually exploit it. For instance, in response to recent dieting trends, food manufacturers have

simply turned junk food into junk diets filling grocery stores with diet foods that are hardly distinguishable from the products that got us into trouble in the first place As obesity rates continue to climb manufacturers are now claiming to add ingredients that can effortlessly cure our compulsive eating habits A gripping account of the legal battles insidious marketing campaigns and cutting edge food science that have brought us to our current public health crisis Hooked lays out all that the food industry is doing to exploit and deepen our addictions and shows us why what we eat has never mattered more
