final product is now ready to be presented before the board of directors as a formal decision for the company In a smaller company this activity stops with the owner but the owner must understand that two heads are usually better than one The CEO and his group must not be taken over by egos the only time for pride in business is when business is doing well financially Even then business needs a lot of careful activity because pride goes before a fall It is good to entrust the CEO with the decision making responsibility but it is the biggest risk a business can take because business is a collection of ideas Therefore it a discipline of collective learning and inquiry Any student manager or business owner who wants to use participative decision making skills in his or her business or as a consultant in participative decision making should attend a workshop at least twice and read about participative decision making thoroughly and practice it from case studies
