Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal Tourism Geographies
