Ike Udogu,2014-03-06 Sub Saharan Africa is experiencing an impressive measure of economic revivalism that is driven by both national and international forces at the beginning of the twenty first century That political and business leaders in the region are determined that development in this millennium will not mimic the slow pace of growth in the twentieth is a given Undoubtedly the rapid spread of information communications technology ICT and contemporary investments of China in the region s growth agenda bear this thesis out This book among other things advances the theory that improving human rights practices and the democracy project i e democratic consolidation in sub Saharan Africa will create an enabling environment that is critical for stimulating the current inspiring development objectives **Accountability for Atrocities: National and International Responses** Jane Stromseth,2021-10-01 This book examines critical challenges in achieving accountability for genocide crimes against humanity and war crimes focussing in particular on the relationship between national and international accountability mechanisms in pursuing key goals over the past decade The essays in this volume provide an in depth look at the goals and mechanisms of accountability in a variety of cases the former Yugoslavia Rwanda Sierra Leone Cambodia Argentina and El Salvador East Timor and Indonesia and Belgium s prosecution of war crimes under its universal jurisdiction law By analyzing the goals pursued in each case the relationship between domestic and international mechanisms the relative emphasis on criminal and non criminal forms of accountability and the effectiveness of the chosen approaches this volume offers important lessons for the ICC and highlights the continuing need for innovative forms of international assistance to advance specific accountability goals in particular countries Published under the Transnational Publishers imprint _Xenophobia and Nativism in Africa, Latin America, and_

Toope,2010-08-05 It has never been more important to understand how international law enables and constrains international politics By drawing together the legal theory of Lon Fuller and the insights of constructivist international relations scholars this book articulates a pragmatic view of how international obligation is created and maintained First legal norms can only arise in the context of social norms based on shared understandings Second internal features of law or criteria of legality are crucial to law s ability to promote adherence to inspire fidelity Third legal norms are built maintained or destroyed through a continuing practice of legality Through case studies of the climate change regime the anti torture norm and the prohibition on the use of force it is shown that these three elements produce a distinctive legal legitimacy and a sense of commitment among those to whom law is addressed   **European Institutions, Democratization, and Human Rights Protection in the European Periphery** Henry F. Carey,2014-10-10 The European Union E U along with the Council of Europe NATO and the Office of Security and Cooperation in Europe are regional organizations which despite their different missions all are designed to support

democracy human rights and the rule of law The E U has required that all of its candidate countries for potential and actual membership adhere to these three criteria along with free market practices since its 1993 Copenhagen inter governmental summit In this book experts have contributed chapters on the European record of induced improvements in a variety of countries Current scholarship has debated whether the rational incentives of accession to membership conditionality theory the normative power of European identity socialization theory or international legal processes institutional theory have explained what some claim are significant improvements Other scholars demur arguing that the improvements have been superficial or ephemeral or conversely that real improvement would have occurred anyway Still others argue that real improvements are reversible especially after E U membership is attained and regimes revert to former or new ways that erode democratization The E U and its peer institutions they suggest are not heavy anchors to democracy in periods of economic distress rising nationalism and extremism Yet others argue that out of these challenges the E U has saved the Euro built even stronger institutions and remains a beacon of desired ideals and membership among countries that conceivably could graduate from its partner organizations and eventually join the E U as well Each chapter assesses what difference the E U and other regional organizations have made in the record of a particular country These country chapters include those that were candidate countries and became member states Romania and Bulgaria in 2007 and Croatia in 2013 those that are now officially candidate countries Iceland Macedonia and since 2014 Serbia those have all signed stabilization agreements which are usually precursors of E U candidature Montenegro Bosnia Albania and since 2014 despite being regarded as too large the Ukraine and too poor Moldova and finally a new country Kosovo despite its non recognition by five E U member states which nonetheless appears to be on the road to eventual E U candidacy This study is a highly nuanced picture of a varying European record fraught with conflicting interests but portraying a picture of outer Europe struggling to improve because it seeks membership in a still powerful supranational organization
