*The Importance of Outsiders to Pauline Communities* Emma Louise Parker, 2024-06-13 This book argues that despite Paul's often dramatic and critical descriptions of non-Christians his letters reveal a deep concern for the presence of outsiders and for their opinion of Christians Parker suggests that outsiders are enormously important to Paul they determine whether Christian communities dwindle or thrive while also playing a key role in helping such communities to understand and shape their purpose as missional disciples develop their thinking and practice around normal daily events and relationships and even shape how they understand God Parker offers a careful exegesis of the main texts within the Pauline corpus revealing a sensitivity to the outsider including 1 Thessalonians Romans 1 Corinthians and the Pastoral Epistles By using Social Identity Theory she explores key concepts of group boundaries identity and inter-group relations highlighting a theme which is significant in Paul's own thought the importance of similarity between groups Whilst

not denying the counter cultural identity of the new Christian communities Parker concludes that Paul reveals the areas of overlap between insiders and outsiders since these areas not only create opportunities for positive opinions and relationships but also point to a greater understanding of God *Review of Biblical Literature, 2024* Alicia J. **Religion and European Society** Ben Schewel,Erin K. Wilson,2019-04-17 A contemporary examination of the role of religion in the European public sphere and beyond Although the role of religion has arguably declined in the societies of Western and Northern Europe religious participation in other parts of the continent and

among growing immigrant communities remains an important aspect of daily life. Recent years have seen a resurgence of religion in the public sphere, prompting many researchers to view European secularism as an outlier in this global trend.

**Religion and European Society: A Primer** presents recent academic literature that explores key developments and current debates in the field, covering topics such as changing patterns of belief, religion across the political spectrum, and development and humanitarian aid. Articles written by leading scholars draw from well-established findings to help readers contemplate the role of religion in public life, understand the assumptions and underpinnings of the secular worldview, and develop new ways of thinking about global issues relevant to contemporary global affairs. Each theme is addressed by several articles to provide readers with diverse, sometimes competing perspectives. This volume offers concepts and ideas that can be used in various policy, practitioner, and academic settings, clarifying overarching concepts and trends rather than analyzing specific policy issues that can quickly become outdated.

Addresses issues of contemporary importance such as demographic changes, increased immigration, the emergence of new religious movements, and changes in more established religions. Explores the ethical and philosophical concepts as well as the practical, everyday consequences of European post-secularism. Challenges widespread assumptions about the secular nature of the modern public sphere. Offers analytical tools as well as practical policy recommendations on a range of issues, including media regulation, gender conflict, and peacebuilding, immigration, and humanitarianism. Designed to move research findings from academic journals to the realm of public discourse.

**Religion and European Society: A Primer** is a valuable source of information for practitioners within and outside of Europe of religious studies, politics, and international affairs.

**Christianity and Social Scientific Perspectives on Sport** Tom Gibbons, Stuart Braye, 2020-06-29. There has been a dramatic increase in academic research activity and practical initiatives on the topic of sports and Christianity and its cultural significance during the past decade. The Faculty of Health and Life Sciences at York St John University, York, UK, hosted the Inaugural Global Congress on Sports and Christianity (IGCSC) 24-28th August 2016 in collaboration with the Bible Society, at which there were 180 delegates from 22 countries in attendance. For the area of sports studies, the social scientific study of sport, there was a thematic strand at the congress titled Christian sociological perspectives on sport, from which a special edition of the journal *Sport in Society* partially emanated. This book is based upon this journal special edition. The papers selected for inclusion in the special edition were purposely eclectic in order to demonstrate the diversity of current research occurring in the area of Christianity and social scientific perspectives on sport. The goal was to bridge divisions between various social science disciplines and theology or religious studies through varied, novel, and interesting explorations of sport in its various forms. We hope this collection inspires further studies into this area. The chapters in this book were originally published in a special issue in *Sport in Society*.
