Stat Spotting A Field Guide To Identifying:

Stat-Spotting Joel Best, 2013-09-14 Does a young person commit suicide every thirteen minutes in the United States Are four million women really battered to death by their husbands or boyfriends each year Is methamphetamine our number one drug problem today Alarming statistics bombard our daily lives appearing in the news on the Web seemingly everywhere But all too often even the most respected publications present numbers that are miscalculated misinterpreted hyped or simply misleading This new edition contains revised benchmark statistics updated resources and a new section on the rhetorical uses of statistics complete with new problems to be spotted and new examples illustrating those problems Joel Best's best seller exposes questionable uses of statistics and guides the reader toward becoming a more critical savvy consumer of news information and data Entertaining informative and concise Stat Spotting takes a commonsense approach to understanding data and doesn't require advanced math or statistics

Stat-Spotting Joel Best, 2013-09-14 This edition updates benchmarks includes a new chapter on rhetoric updated a few examples and thoroughly updated the bibliography *Is That a Fact? - Second Edition* Mark Battersby, 2016-03-04 How much should we trust the polls on the latest electoral campaign When a physician tells us that a diagnosis of cancer is 90% certain or a nutritionist tells us what is healthy to eat what should we believe Questions such as these are greatly important yet many of us have only a vague sense of how to answer them In *Is That a Fact* Mark Battersby aims not only to explain how to identify misleading statistics and research but also to give readers the understanding necessary to evaluate and use statistical information in their own decision making This second edition is revised and updated throughout and includes a new chapter on weighing risk in personal and public decision making

Understanding Emerging Epidemics Ananya Mukherjee, 2010-02-25 Focuses on the contributions that social scientists can make to understanding emerging epidemics their impact the threats they pose and their social and political contexts This book examines emerging epidemics and offers a theoretical analysis of the use of epidemics and epidemiology as frameworks for understanding these phenomena The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today what is it why is it important how can you teach it across a wide range of curriculum areas and grade levels and does it work Rather than focusing on how to teach media literacy Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas

Investigating Social Problems A. Javier Trevino, 2017-12-21 A Javier Trevino working with a panel of experts thoroughly examines all aspects of social problems providing a contemporary and authoritative introduction to the field Each chapter is written by a specialist on that particular topic and the unique contributed format ensures that the research and examples provided are the most current and relevant available The text is framed around three major themes intersectionality the

interplay of race ethnicity class and gender the global scope of many problems and how researchers take an evidence based approach to studying problems Sex, Drugs, and Body Counts Peter Andreas, Kelly M. Greenhill, 2011-01-15 At least 200 000 250 000 people died in the war in Bosnia There are three million child soldiers in Africa More than 650 000 civilians have been killed as a result of the U S occupation of Iraq Between 600 000 and 800 000 women are trafficked across borders every year Money laundering represents as much as 10 percent of global GDP Internet child porn is a 20 billion a year industry These are big attention grabbing numbers frequently used in policy debates and media reporting Peter Andreas and Kelly M Greenhill see only one problem these numbers are probably false Their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure As a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences This problem exists in myriad policy realms But it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on In *Sex Drugs and Body Counts* political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation They also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade The Routledge Handbook of Chinese Criminology Liqun Cao, Ivan Y. Sun, Bill Heberton, 2013-07-24 As the world's second largest economy China has made great progress in developing criminology The Routledge Handbook of Chinese Criminology aims to be a key reference point to summarize the large body of literature in both Chinese and English about various aspects of crime and its control in China for international scholars with an interest in the development of criminological research on and in the Greater China region and for everyone with a broad interest in international criminology The editors of the handbook have selected authoritative contributors recognized for their research and scholarship on China Hong Kong Macao and Taiwan This handbook consists of five sections An account of the development of criminology as an academic discipline in modern China as well as some of the unique theories strategies or philosophies of crime control that have emerged An analysis of the criminal justice system in China including the police the courts corrections juvenile justice and the death penalty An exploration of the issues and problems in conducting research in China Reflections on the nature of crime and criminality in China including drugs prostitution human trafficking corruption floating population domestic violence and white collar crime An account of crime and criminal justice in Taiwan Hong Kong and Macao The book presents a coherent and comprehensive collection of essays on current research and theory in criminology crime and justice in China and Greater China and the Editors Introduction and Conclusion provide further contextualisation of the Handbook's key themes Picturing the Uncertain World Howard Wainer, 2009 From the publisher This book

explores how graphs can serve as maps to guide us when the information we have is ambiguous or incomplete Using a visually diverse sampling of graphical display from heartrending autobiographical displays of genocide in the Kovno ghetto to the Pie Chart of Mystery in a New Yorker cartoon Wainer illustrates the many ways graphs can be used and misused as we try to make sense of an uncertain world Picturing the Uncertain World takes readers on an extraordinary graphical adventure revealing how the visual communication of data offers answers to vexing questions yet also highlights the measure of uncertainty in almost everything we do Are cancer rates higher or lower in rural communities How can you know how much money to sock away for retirement when you don't know when you'll die And where exactly did nineteenth century novelists get their ideas These are some of the fascinating questions Wainer invites readers to consider Along the way he traces the origins and development of graphical display from William Playfair who pioneered the use of graphs in the eighteenth century to instances today where the public has been misled through poorly designed graphs

Propaganda in the Helping Professions Eileen Gambrill, 2012-02-20 Propaganda in the helping professions has grown by leaps and bounds in recent decades with alarming implications for clients and their families as well as the professionals who try to help them There is a fog that has been generated by corporate interests and organizations attempting to sell their services and products to desperate or poorly educated consumers Propaganda in the Helping Professions is a guide to lifting the confusion From phrenology to institutional crib beds for adult psychiatric patients from Roman bird beak masks to drugs designed to combat overurination readers are taken on a tour across the centuries of egregious practices of professionals and quacks including the present day medicalization of our lives The author one of the field's most relentless critics of fads phonies and fallacies shows readers how to think critically about both research and advertising in order to deliver effective services to clients and not be bamboozled by bogus claims about alleged problems risks and remedies Incisive interesting eminently readable and passionately argued this book places responsibility for client well being both on consumers to raise questions and on the professionals who claim to help them to accurately answer them

Rebooting Policy Analysis Peter Linquiti, 2022-01-17 Rebooting Policy Analysis Strengthening the Foundation Expanding the Scope is a savvy introduction to policy analysis that gets students thinking not just about how decisions should be made but how they are made The text highlights practical skills needed to advise decision makers on matters of public policy in ways that are well informed and solutions oriented while managing limitations like time resources and information In a world that has become increasingly complex and partisan the strength of policy analysis rests not only in its classical academic methods but on the development of a practical analytic mindset

Rethinking Internal Displacement Frederick Laker, 2021-11-01 Internal displacement has become one of the most pressing geo political concerns of the twenty first century There are currently over 45 million internally displaced people worldwide due to conflict state collapse and natural disaster in such high profile cases as Syria Yemen and Iraq To tackle such vast human suffering in the last twenty years a global United Nations regime has emerged that seeks to replicate

the long established order of refugee protection by applying international law and humanitarian assistance to citizens within their own borders This book looks at the origins structure and impact of this new UN regime and whether it is fit for purpose

The Real Economy Federico Neiburg, Jane I. Guyer, 2020-05-01 This collection highlights a key metaphor in contemporary discourse about economy and society The contributors explore how references to reality and the real economy are linked both to the utopias of collective

well being supported by real monies and good economies and the dystopias of financial bubbles and busts in which people's own lives crash along with the reality of their economies An ambitious anthropology of economy this volume questions how assemblages of vernacular and scientific realizations and enactments of the economy are linked to ideas of truth and moral value how these multiple and shifting realities become present and entangle with historically and socially situated lives and how the formal realizations of the concept of the real in the governance of economies engage with the experiential lives of ordinary people Featuring essays from some of the world's most prominent economic anthropologists *The Real Economy* is a milestone collection in economic anthropology that crosses disciplinary boundaries and adds new life to social studies of the economy

Second Thoughts: Sociology Challenges Conventional Wisdom Janet M. Ruane, Karen A. Cerulo, 2011-06-07 Do birds of a feather flock together or do opposites attract Does haste make waste or should you strike while the iron is hot Adages like these or conventional wisdoms shape our social life This Fifth Edition of *Second Thoughts* reviews several popular beliefs and notes how such adages cannot be taken at face value This unique text encourages students to step back and sharpen their analytic focus with 24 essays that use social research to expose the gray areas of commonly held beliefs revealing the complexity of social reality and sharpening students' sociological vision

Methods and Measurements Bernard C. Beins, 2012 Highlights the different ways that psychology researchers ask questions and how they attempt to answer them

How to Critique Journal Articles in the Social Sciences Scott R. Harris, 2013-09-23 This brief introductory book provides readers with a step by step guide to reading and understanding a social science research article The author demonstrates the many strengths of social research including its advantages over ordinary ways of knowing things and at the same time points out that research is inevitably flawed Rather than naively assuming that good research simply produces The Truth or cynically asserting that research is hopelessly biased and futile this book instills in readers a critical perspective one that appreciates the strengths and weaknesses of any piece of scholarship
