Regulating Local Government Financing Vehicles and Public-Private Partnerships in China Hui Jin,Isabel Rial,2016-09-21 In this paper we argue that there is much room for China to strengthen its regulatory framework for public private partnerships PPPs We show that infrastructure projects carried out through local government financing vehicles LGFVs were largely unregulated PPPs and significant fiscal risks have already manifested themselves While PPPs can potentially provide efficiency gains they can also be used by governments to circumvent budgetary borrowing constraints Therefore effective PPP regulation is key to delivering PPPs

benefits while containing their potential fiscal risks The authorities have taken concrete steps in order to establish a sound regulatory framework and foster a new generation of PPPs However to make the framework effective we highlight a few issues to be resolved Based on international best practice we propose a four pillar regulatory framework for China which could be implemented gradually in three stages *Development on Loan* Nicholas Loubere,2025-10-01 Key to China's plans to promote rural development is the de marginalisation of the countryside through the incorporation of rural areas into the urban based market oriented financial system For this reason Chinese development planners have turned to microcredit i e the provision of small scale loans to financially excluded rural households as a means of increasing financial consciousness and facilitating rural de marginalisation Drawing on in depth fieldwork in rural China this book examines the formulation implementation and outcomes of government run microcredit programmes in China illuminating the diverse roles that microcredit plays in local processes of socioeconomic development and the livelihoods of local actors It details how microcredit facilitates de marginalisation for some while simultaneously exacerbating the marginalisation of others and exposes the ways in which microcredit and other top down development strategies reflect and reinforce the contradictions and paradoxes implicit in rural China's contemporary development landscape **Managing Local Government** Kimberly L. Nelson,Carl W. Stenberg,2025-06-24 Managing Local Government An Essential Guide for Municipal and County Managers 2nd Edition covers the basics of the local government management curriculum with a regional approach that examines the local governmental structural forms administrative functions and financial considerations inherent to the metropolitan environment To prepare the next generation of local leaders authors Kimberly Nelson and Carl Stenberg incorporate real life scenarios case studies and class discussion questions to help students understand contemporary issues *Public Service Management and Employment Relations in Europe* Stephen Bach,Lorenzo Bordogna,2016-07-07 Has there been a transformation of public service employment relations in Europe since the crisis Public Service Management and Employment Relations in Europe examines public service employment relations after the economic crisis including analysis of more than thirty years of public service and workforce reform and addresses the interplay between an emerging post crisis public service sector and the consequences for the state employers and trade unions in core public services Written by leading national experts this book places the economic crisis in a longer timeframe and examines how far trends in public sector employment relations were reinforced or reversed by the crisis It provides an up to date analysis of the restructuring of public service employment relations in 12 major European countries including analysis of little studied central and Eastern European countries This book will be vital reading for researchers academics and PhD Students in the fields of Public Management Public Administration Employment Relations and Human Resource Management **Macroeconomic Policy and Steady Growth in China** Zhang Xiaojing,2021-09-19 Since the appearance of macroeconomics in the 1940s economists have created many theoretical frameworks to explain the origin and mechanism of economic fluctuations However few of

these have managed to gain explanatory power over reality nor can they solve real life problems This book proposes a new macroeconomic paradigm that makes breakthroughs in these areas Based on a balance sheet approach and macro financial linkage analysis this book carries out a comprehensive analysis of the trends within China s macroeconomy in 2020 The author argues that the COVID 19 pandemic created a great degree of uncertainty therefore supply side structural reform and improved total factor productivity have been promoted to ensure a policy of steady growth Given the declining economic growth rate in percentage terms China has needed to adapt to a moderate increase in the leverage ratio while applying more effective fiscal policies to achieve a dynamic balance between stable growth and risk prevention Scholars and students of economics and finance especially Chinese economics will find this book a useful reference United States Code 2012 Edition Supplement IV ,

Greening China's Urban Governance Jørgen Delman, Yuan Ren, Outi Luova, Mattias Burell, Oscar Almén, 2018-10-24 This volume examines how urban stakeholders in China particularly city governments and social actors tackle China s urban environmental crisis The volume s case studies speak to important interdisciplinary themes such as new tools and instruments of urban green governance climate change and urban carbon consumption green justice digital governance public participation social media social movements and popular protest It lays out a unique theoretical framework for examining and discussing urban green governance The case studies are based on extensive fieldwork that examines governance failures challenges and innovations from across China including the largest cities They show that numerous policies experiments and reforms have been put in place in China mostly on a pragmatic basis but also as a result of both strategic policy design civil participation and protest The book highlights how China s urban governments bring together diverse programmatic building blocks and instruments from China and elsewhere Written by experts and researchers from different disciplines at leading universities in China and the Nordic countries in Europe this volume will be of interest to researchers and students who are interested in Chinese politics especially urban politics governance issues and social movements Both students and teachers will find the theoretical perspectives and case studies useful in their coursework The unique green governance perspective makes this a work that is empirically and theoretically interesting for those working with urban political and environmental studies and urbanization worldwide **Chinese Environmental Law**

Yuhong Zhao, 2021-06-17 Analysis of Chinese environmental law with a focus on the development in statutory regulation institution building and judicial innovation *The UK Regional-National Economic Problem* Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain s regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in

the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK s economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government *Catalog of Federal Domestic Assistance* ,1969 Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs **Pursuing Sustainable Development Goals** Billur Engin Balın,H. Dilara Mumcu Akan,Ferda Karagöz Özenç,Özcan Garan,2024-05-15
