Design of Demining Machines is primarily tailored as a text for the study of the fundamentals and engineering techniques involved in the calculation and design of demining machines. It will prove as useful resource for engineers, designers, researchers and policy makers working in this field **AMJ, Agricultural Machinery Journal** ,1982 Seventy Years of Farm Tractors 1930-2000 Brian Bell,2020-02-20 By the end of the twentieth century there were some half million tractors on British farms more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4 wheel drive machines with air conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis Chalmers to Zetor one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the histories of the companies and their major models illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold starting aids. He includes a glossary and full index. This book replaces the author's earlier successful Fifty Years of Farm Tractors. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty first century.

Das Verkehrsgeschehen auf Deutschlands Straßen - um 1992 Verena-Ramona Volk,2023-03-02 Ich Verena Ramona

Volk geboren 1956 wuchs im Schwarzwald auf und zog mit meinen Eltern bald in das schwäbische Bayern. Seit ich in die Schule kam sammelte ich Wiking Modellautos was auch bald mein Hobby wurde. Ich denke mir halt lieber Auto sammeln als das man raucht oder das Geld zum Fenster wirft durch Alkohol. Es ist nicht nur gedacht an die Jugend mit meinem Buchband, nein auch Erwachsene können darin vieles nachlesen was man heute zu Tage schnell mal braucht. Meine Sammlung wird in den nächsten Monaten sicherlich noch oft zu bestaunen sein. So wird diese im Dezember 1994 bis Januar 1995 im Heimatmuseum Friedberg zu sehen sein. Der nächste Ausstellungsort ist das alte Berufsfeuerwehrhaus Zeughaus in Augsburg wo die Sammlung vom Februar bis März 1995 zu sehen ist. Es gibt viele Modellautomarken aber alle kann man sich nicht anschaffen einmal wegen des Platzes und das Andermal wegen des Geldes. So blieb ich der Modellautomarke Wiking bis heute treu und ergeben. Leider wird dieses von der Firma Wiking nicht so gesehen. Aber da ich nicht die einzige Sammlerin bin in der Bundesrepublik Deutschland welcher Wiking Modellautos sammelt. Das vorliegende Buch soll dem Leser einen Überblick geben über das Wissen im Straßenverkehr welches in der Vielfalt von Variationen im Maßstab 1:90. Karl Friedrich Peltzer 1871 Sieper HO keine Aufnahmen und auch weitesten Inhalte darüber zu lesen oder beschrieben in dem H A U Museum in Schramberg zu betrachten sind. Es kann weder einen Anspruch auf Vollständigkeit geben noch soll es Konkurrenz zu anderen Büchern sein. Begriffe wie Originaltreue und Gediegenheit Aktualität aber auch Wertzuwachs machen mich mit Wiking verbunden. Ebenso die lange Erfahrung von Qualität höchste Materialgüte sowie der Pflege der Tradition klassischen Wiking Modelle. Bitzinger, Stephanie G. Neuman, 2021-05-13 Defence Industries in the 21st Century explores the transformation in the global defence industrial production through examining the interaction between international and domestic factors. With the global defence industry and arms market likely continue to expand and mature the ways in which this progression could influence international politics remain obscure. In practice as the contents of this book show the defence industrial bases and arms export policies of emerging states display significant variance. This variance is the result of a unique balance between domestic and international factors that has shaped the defence industrialisation behaviour and policies of the less industrialised states. One of the most important conclusions of the book is that the interplay between domestic and international factors clearly influences the variation in the emerging states defence industrialisation policies as well as their success or failure. While international factors create opportunities they also limit the options available to emerging economies. Domestic factors also play an important role by shaping the policy choices of the states decision makers. Exploring the balance between international and domestic factors and the ways in which they influence defence industrialisation in emerging states Defence Industries in the 21st Century will be of great interest to scholars of Defence Industries Arms Manufacturing and Defence Strategic and Security Studies more generally.
