Pretorius,Luciana Londero Brandli,Evangelos Manolas,Fatima Alves,Ulisses Azeiteiro,Judy Rogers,Chris Shiel,Armin da Do Paco,2019-04-30 This book fills an important gap in the literature and presents contributions

from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education. It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field. Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner. The aims of this book, which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018, are as follows: i) to document the experiences of universities from all around the world in curriculum innovation, research activities and practical projects as they relate to sustainable development at the university level; ii) to disseminate information, ideas and experiences acquired in the execution of projects including successful initiatives and good practice; iii) to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities; and iv) to promote the scalability of existing and future models from universities as living labs for sustainable development. The papers are innovative, cross-cutting and many reflect practice-based experiences, some of which may be replicable elsewhere. Also, this book, prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC, reinforces the role played by universities as living labs for sustainable development.

A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond Zakeera Docrat, Russell H Kaschula, Monwabisi K Ralarala, 2021-06-02. A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond is an interdisciplinary publication located in the discipline of forensic linguistics, language and law. This handbook includes varying comparative African and global case studies on the use of languages in courtroom discourse and higher education institutions: Kenya, Morocco, Nigeria, Australia, Belgium, Canada and India. These African and global case studies form the backdrop for the critique of the monolingual English language of record policy for South African courts, the core of this handbook, discussed in relation to case law and the beleaguered legal interpretation profession. This handbook argues that linguistic transformation and decolonisation of South Africa's legal and higher education systems needs to be undertaken where legal practitioners are linguistically equipped to litigate in a bilingual, multilingual courtroom that enables access to justice for the majority of African language-speaking litigants enforcing their constitutional language rights.

Edwin Cameron: Influences and impact Nurina Ally, Leo Boonzaier, 2025-07-13. An outstanding collection of essays written by some of the leading scholars of South African law, which has resulted in a fitting tribute to Edwin Cameron's contribution to our constitutional project. Kate O'Regan, Former Justice of the Constitutional Court of South Africa. Edwin Cameron's life and incomparable contribution to the law are justly celebrated in this thoughtfully curated set of essays penned by people who have walked parts of the path with him. Jason Brickhill, Member of the Johannesburg Bar.
