Stacy, 2022-02-21 Living By Chemistry is a full year high school curriculum that incorporates science practices with a guided inquiry approach By encouraging students to ask questions and teaching them to collect evidence students learn how to think like scientists The new 3rd edition provides topical and necessary focuses on earth science sustainability and NGSS style problem solving

Building Maintainable Software Joost Visser, 2016 Have you ever felt frustrated working with someone else's code Difficult to maintain source code is a big problem in software development today leading to costly delays and defects Be part of the solution With this practical book you'll learn 10 easy to follow guidelines for delivering Java software that's easy to maintain and adapt These guidelines have been derived from analyzing hundreds of real world systems Written by consultants from the Software Improvement Group SIG this book provides clear and concise explanations with advice for turning the guidelines into practice Examples for this edition are written in Java while our companion C book provides workable examples in that language Provided by publisher

Health Assessment and Physical Examination Mary Ellen Zator Estes, Pauline Calleja, Karen Theobald, Theresa Harvey, 2019-10-24 Health assessment is an ongoing process that evaluates the whole person as a physical psychosocial and functional being whether they are young or old well or ill This market leading text presents health assessment physical examination information and skills for health professionals who undertake these types of assessments Health Assessment and Physical Examination is scaffolded from foundation to more advanced health assessment following a body systems approach and a head to toe approach It uses the ENAP Examine Normal Abnormal Pathophysiology approach as a tool for students to collect useful information An applied case study at the end of each chapter walks students through an example of an assessment This comprehensive yet student friendly text is noted for its high quality case studies pedagogical elements and excellent student resources Unique to this text are the advanced topics and Urgent findings which highlights serious or life threatening signs or critical assessment findings that need immediate attention

Building Maintainable Software, Java Edition Joost Visser, Sylvan Rigal, Rob van der Leek, Pascal van Eck, Gijs Wijnholds, 2016-01-28 Have you ever felt frustrated working with someone else's code Difficult to maintain source code is a big problem in software development today leading to costly delays and defects Be part of the solution With this practical book you'll learn 10 easy to follow guidelines for delivering Java software that's easy to maintain and adapt These guidelines have been derived from analyzing hundreds of real world systems Written by consultants from the Software Improvement Group SIG this book provides clear and concise explanations with advice for turning the guidelines into

practice Examples for this edition are written in Java while our companion C book provides workable examples in that language Write short units of code limit the length of methods and constructors Write simple units of code limit the number of branch points per method Write code once rather than risk copying buggy code Keep unit interfaces small by extracting parameters into objects Separate concerns to avoid building large classes Couple architecture components loosely Balance the number and size of top level components in your code Keep your codebase as small as possible Automate tests for your codebase Write clean code avoiding code smells that indicate deeper problems

Living by Chemistry (2018 Update)

Angelica M. Stacy, 2019-03-07 Designed to help all students to learn chemistry Living by Chemistry is a full year high school curriculum that incorporates science practices with a guided inquiry approach Students of all levels will gain a deep understanding of chemistry with this program With Living by Chemistry students learn chemistry in the same way that chemists work by asking questions collecting evidence and thinking like scientists Living by Chemistry is the product of a decade of research and development in high school classrooms focusing on optimizing student understanding of chemical principles Author Angelica Stacy assisted in the development of the NGSS standards and served on the AP Chemistry redesign committee She designed Living by Chemistry as an introduction for students who will take AP Chemistry or additional college classes The curriculum was developed with the belief that science is best learned through first hand experience and discussion with peers Guided inquiry allows students to actively participate in and become adept at scientific processes and communication These skills are vital to a student's further success in science as well as beneficial to other pursuits Formal definitions and formulas are frequently introduced after students have explored scrutinized and developed a concept providing more effective instruction LBC's innovative curriculum offers much more than traditional programs To help engage students of all levels the curriculum provides a variety of learning experiences through activities discussions games demos lectures labs and individual work

Lippincott® Illustrated Reviews: Physiology Robin R. Preston, Thad E.

Wilson, 2024-01-08 *Fundamentals of Caring for the Older Person* Claire Pryor, Sue Tiplady, 2025-09-15 A comprehensive guide to delivering high quality care for older adults As older adults increasingly become the primary users of health and social care services the need for health and social care professionals with specific knowledge in this area has never been greater Fundamentals of Caring for the Older Person equips nursing students and healthcare professionals with the essential skills knowledge and attitudes needed to provide compassionate evidence based care for older individuals with complex needs With real world narratives this practical guide offers a holistic approach recognising that older people are not a homogenous group but individuals with unique experiences strengths and requirements Written by experienced clinicians and academics the book integrates key considerations across physical psychological and social dimensions of care offering a clear and engaging foundation for anyone committed to enhancing the quality of care for older adults in diverse settings Presents a person centred approach to caring for older adults featuring episodes of care examples and narratives to amplify
