Walking Like Einstein The Greatest Spiritual Find Of Our Time:

Walking Like Einstein Scott Taylor, 2014-11-19 Albert Einstein is perhaps the missing link between science and religion. He believed in God but through scientific research and mathematics he discovered that the world in which we live is not what it seems. Without intending to do so he discovered an error in one of the major cornerstones of science. He discovered the truth about time and the error of evolutionary theory but it was too late. The scientific community was already committed and nature would have to take its course. Ironically history continued to be taught as evolving while many brilliant minds could not. The information was suppressed. During that time the world seemed to enter into a period of chaos, world wars and social uprisings. The underpinnings of institutions were overrun and liberated in the name of freedom. Peace, love and rock n roll took center stage forming a new foundation and direction for world events. The clash between old world thinking and the modern world continues. Meanwhile my own story was also unfolding. From a non religious simple childhood I came to discover an error in the history of the early Christian church. It is this error coupled with Einstein's discovery which makes for the greatest spiritual find of our time. Together they mark the end of the age, the end of times. *Finding Yourself in Chaos* James R. Newby, Mark Minear, 2022-08-23 The blessings and burdens that come with a life in ministry and religious leadership present complex situations and personal struggles that left unaddressed can lead to burn out and a loss of vocational conviction. A minister's spiritual and mental wellbeing is an essential part of them being an effective servant of God so it's important that they be supported and equipped to handle the chaos that modern life brings. Recognizing and embracing the transitional pain of life events like divorce, retirement, the death of a family member. Authors James R. Newby and Mark Minear guide readers through a plan of action focused on self discovery and renewal of spirit. This book speaks to ministers in local churches who are questioning themselves in transition and are experiencing chaos and who still want to be effective ministers. It is also for congregational leaders and denominational leaders who would like to understand both the perils and possibilities of the chaos some of the religious leaders under their care and jurisdiction are experiencing. *The Other Side of the River* Alf Dumont, 2020-06-01 Alf Dumont's powerful memoir offers a fresh perspective on identity and belonging in Canada. Alf walks between the two worlds of Indigenous and settler traditional spirituality and Christianity. Through stories, poetry and insight he shares about his life of building bridges between these worlds, encouraging all people to sit down together again. Includes foreword by The Very Rev Dr Stanley McKay, Former United Church of Canada Moderator. Includes black and white photos throughout. **Are You Getting Enlightened Or Losing Your Mind?** Dennis Gersten, Larry Dossey, 1998 Many Americans who claim to have had an unusual spiritual experience also have had problems handling stress, anxiety and depression. Now in paperback, psychiatrist Dennis Gersten's program for psychological, spiritual, peace, fitness and integrity provides information for dealing with the sense of dislocation that often accompanies spiritual experiences. A Theology of the Third Article Aaron T. Smith, 2014-06-02 Toward the end of his career Karl Barth made the provocative statement that perhaps what Schleiermacher was up to was a theology of the third article and that he anticipated in the future that a true third article theology would appear Many interpreters of course took that to indicate not only a change in Barth's perception of Schleiermacher but also as a self referential critique The author investigates this claim contesting the standard interpretations and argues for a Barthian pneumatology a doctrine of the Holy Spirit grounded in the scriptural witness and connected to the vital Christological and dialectical theology found in Barth's project

Einstein's God Krista Tippett,2010-02-23 A New York Times bestseller

An exhilarating exploration of the meaning of it all Robert Wright author of The Evolution of God Drawn from Krista Tippett's Peabody Award winning public radio program the conversations in this profoundly illuminating book reach for a place too rarely explored in our ongoing exchange of ideas the nexus of science and spirituality In fascinating interviews with such luminaries as Freeman Dyson Janna Levin Parker Palmer and John Polkinghorne Krista Tippett draws out the connections between the two realms showing how even those most wedded to hard truths find spiritual enlightenment in the life of experiment and in turn raise questions that are richly theologically evocative Whether she is speaking with celebrated surgeon and author Sherwin Nuland about the biology of the human spirit or questioning Darwin biographer James Moore about his subject's religious beliefs Tippett offers a rare look at the way our best minds grapple with the questions for which we all seek answers
