National Labor Relations Board,2016-05 *The Road to Tenure* Erin Marie Furtak,Ian Parker Renga,2014-04-02 The Road to Tenure offers humorous recollections of the messiness and confusion that fill the days of a pre tenure academic from graduate school through the postdoc and into the assistant professor days The book s three sections roughly map onto the chronology of academic life beginning with graduate school and the job search experience followed by teaching research and service and finally the challenges of family and academic identity The book is not a how to nor does it emphasize lessons learned on the way to tenure Instead the collection earnestly and with good humor captures a significant and meaningful slice of the experience of pursuing academia in contemporary colleges and universities For the doctoral student or newly hired faculty member these essays will provide some comfort with their implicit suggestion that while it s certainly hard work you are not alone *Ideas Don't Die. Companies Do.* Hari Abburi,2025-06-30 Rethink ideas as the real value to the future of your business in a technology world where knowledge is increasingly a commodity In *Ideas Don't Die Companies Do* renowned voice on disruptive agility and executive Hari Abburi delivers an insightful framework for leaders to future proof their companies by creating an idea obsessed enterprise In the book you ll learn why ideas are more important than customers to disrupt the industry and marketplace The author explains how to distinguish between ideas that are truly original and those that require strategic execution to differentiate them from other choices on the market He offers key insights into how to glean information from other companies who have worked with the idea and how to apply that knowledge to your firm s own idea Inside the book Explanations of the idea moat that creates exponential value at one company as opposed to another that uses similar ideas Compelling answers to questions about idea timing and why ideas that failed a few years ago can be successful today How to shift your company s focus from thinking customers to thinking ideas Perfect for managers executives entrepreneurs founders and other business leaders *Ideas Don't Die Companies Do* will also benefit product team leaders and other innovators with a desire to bring new and exciting ideas to the market
