this memoir about overcoming adversity in America the U S Senator responsible for creating opportunity zones explains how hard work and community growth can drive businesses and end poverty Senator Tim Scott knows adversity As the son of a single mother from North Charleston South Carolina he struggled to get through school and had his dreams of a college football career shattered by a car wreck But thanks to his mother and a few mentors along the way he learned that failure isn't failure unless you quit He also learned that it's hard work and perseverance not a government handout that will get you ahead in life Today Senator Scott is the only black Republican in the Senate and he believes that investment and commerce are the best ways to rebuild our most impoverished communities This is the idea behind his signature piece of legislation the opportunity zones program which President Trump has strongly endorsed The program provides tax incentives for businesses that invest in low income urban areas seeking to replace things like welfare and government assistance In Opportunity Knocks Senator Scott will tell his life story with a focus on adversity and opportunity He will teach readers about the principles of hard work and hope while addressing the dangers of veering too far toward socialist policies The book will also not shy away from discussions of racism and racial inequality in the United States and will recount some of Senator Scott's own brushes with racism as well as the many discussions he's had with people who want to help including President Trump

Richard Paul Evans, 2014-11-18 A love story for Christmas now a Hallmark Channel original movie from the 1 bestselling author of The Christmas Box and The Walk Elise Dutton dreads the arrival of another holiday season Three years earlier her husband cheated on her with her best friend resulting in a bitter divorce that left her alone broken and distrustful Then one November day a stranger approaches Elise in the mall food court Though she recognizes the man from her building Elise has

never formally met him Tired of spending the holidays alone the man offers her a proposition For the next eight weeks until the evening of December 24 he suggests that they pretend to be a couple He draws up a contract with four rules 1 No deep probing personal questions 2 No drama 3 No telling anyone the truth about the relationship 4 The contract is void on Christmas Day The lonely Elise surprises herself by agreeing to the idea As the charade progresses the safety of her fake relationship begins to mend her badly broken heart But just as she begins to find joy again her long held secret threatens to unravel the emerging relationship But she might not be the only one with secrets [Insurgent \(Episode 2\)](#) Charles Sheehan-Miles,2014-01-14 Insurgent was originally released as a serialized ebook The full complete version of Insurgent is now available This is the second part of the serialized ebook When terrorists break into a secret biomedical research lab Valerie Murphy finds herself in a race against time to prevent disaster From an author described by an Amazon Top 50 reviewer as one of America s criminally neglected authors comes the second installment of the sequel to the surprise bestseller Republic A Novel of America s Future [Missing](#) Sam Hawken,2014-09-04 Jack Searle is an American widower bringing up his two stepdaughters Lidia and Marina alone in the border town of Laredo after losing his wife to cancer Jack often takes the girls to visit their Mexican family over the border in Nuevo Laredo Marina the elder sister persuades him to let her go there without him one night to attend a concert with her cousin Patricia Jack wants to say no Nuevo Laredo is a very dangerous city controlled by drug cartels and devastated by violence and corruption But eventually he agrees she s growing up and he has to let her have some independence Marina and Patricia head out to the concert but they never come back A frantic hunt for them begins with Jack leading the way But this is Nuevo Laredo and girls go missing all the time here They re lucky to find that a good cop Gonzalo Soler is leading their investigation but soon the whole police force is suspended due to endemic corruption The army take over the city and finding the missing girls is not their priority To survive this nightmare and have any chance of finding Marina and Patricia Jack and Gonzalo must take the law into their own hands Their efforts to find the girls become more and more dangerous and they uncover truths about the city of Nuevo Laredo that neither one of them ever wanted to face [The Missing Place](#) Sophie Littlefield,2014-10-14 Edgar nominated Sophie Littlefield author of the critically acclaimed GARDEN OF STONES writes suspenseful women s fiction sure to appeal to fans of Sandra Brown or Gillian Flynn When two young men vanish from an oil rig in North Dakota no one seems in a hurry to find them except their mothers two women from very different worlds who must work together to find their sons [Unequal Time](#) Dan Clawson,Naomi Gerstel,2014-07-10 Life is unpredictable Control over one s time is a crucial resource for managing that unpredictability keeping a job and raising a family But the ability to control one s time much like one s income is determined to a significant degree by both gender and class In Unequal Time sociologists Dan Clawson and Naomi Gerstel explore the ways in which social inequalities permeate the workplace shaping employees capacities to determine both their work schedules and home lives and exacerbating differences between men and women and the economically privileged and

disadvantaged Unequal Time investigates the interconnected schedules of four occupations in the health sector professional class doctors and nurses and working class EMTs and nursing assistants While doctors and EMTs are predominantly men nurses and nursing assistants are overwhelmingly women In all four occupations workers routinely confront schedule uncertainty or unexpected events that interrupt reduce or extend work hours Yet Clawson and Gerstel show that members of these four occupations experience the effects of schedule uncertainty in very distinct ways depending on both gender and class But doctors who are professional class and largely male have significant control over their schedules and tend to work long hours because they earn respect from their peers for doing so By contrast nursing assistants who are primarily female and working class work demanding hours because they are most likely to be penalized for taking time off no matter how valid the reasons Unequal Time also shows that the degree of control that workers hold over their schedules can either reinforce or challenge conventional gender roles Male doctors frequently work overtime and rely heavily on their wives and domestic workers to care for their families Female nurses are more likely to handle the bulk of their family responsibilities and use the control they have over their work schedules in order to dedicate more time to home life Surprisingly Clawson and Gerstel find that in the working class occupations workers frequently undermine traditional gender roles with male EMTs taking significant time from work for child care and women nursing assistants working extra hours to financially support their children and other relatives Employers often underscore these disparities by allowing their upper tier workers doctors and nurses the flexibility that enables their gender roles at home including for example reshaping their workplaces in order to accommodate female nurses family obligations Low wage workers on the other hand are pressured to put their jobs before the unpredictable events they might face outside of work Though we tend to consider personal and work scheduling an individual affair Clawson and Gerstel present a provocative new case that time in the workplace also collective A valuable resource for workers advocates and policymakers alike Unequal Time exposes how social inequalities reverberate through a web of interconnected professional relationships and schedules significantly shaping the lives of workers and their families
