Handbook of Research on E-Learning Methodologies for Language Acquisition de Cássia Veiga Marriott, Rita,Lupion Torres,

Patricia,2008-07-31 This book discusses the complete range of contemporary research topics such as computer modeling geometry geoprocessing and geographic information systems Provided by publisher Contextualising Rural Education in South African Schools ,2023-04-03 South Africa s democratic government inherited a divided and unequal system of education Under apartheid South Africa had nineteen different educational departments separated by race language geography and ideology This education system prepared learners in different ways for the positions they were expected to occupy in social economic and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class The newly elected democratic government in 1994 laid a foundation for a single national education system Twenty five years after the dawn of democracy education is still in a parlous state in many communities in South Africa but it is in the rural areas mainly in the former homelands that learners are most disadvantaged Contributors are Olufemi Timothy Adigun Oluwatoyin Ayodele Ajani Alan Bhekisisa Buthelezi Joyce Phikisile Dhlamini Bongani Thulani Gamede Samantha Govender Lawrence Kehinde Nontobeko Prudence Khumalo Primrose Ntombenhle Khumalo Azwidohwi Philip Kutame Manthekeleng Linake Sive Makeleni Nkhensani Maluleke Bothwell Manyonga Mncedisi Christian Maphalala Takalani Mashau Hlengiwe Romualda Mhlongo Rachel Gugu Mkhasibe Dumisani Wilfred Mncube Nicholus Tumelo Mollo Ramashego Shila Mphahlele Fikile Mthethwa Grace Matodzi Muremela Edmore Mutekwe Nokuthula Hierson Ndaba Clever Ndebele Thandiwe Nonkululeko Ngema Phiwokuhle Ngubane Sindile Ngubane Dumisani Nzima Livhuwani Peter Ramabulana and Maria Tsakeni Facing homelessness Stephan de Beer,Rehana Vally,2022-02-10 In Facing homelessness Finding inclusionary collaborative solutions we face the other and in facing the other we face ourselves This book contributes to an emerging body of knowledge on street homelessness in the South African context It is meant for researchers and scholars who are committed to finding solutions for street homelessness It offers conceptual frameworks and practical guidelines for a liberating and transformative response to homelessness It brings together authors from a wide range of disciplines fusing the rigour of researchers the vision of activists and the lived experience of practitioners In this volume the causes of street homelessness in South Africa today and its different faces are traced It critiques singular solutions and interrogates the political institutional and moral failures that contribute to the systemic exclusion of homeless persons and other vulnerable populations from society It proposes rights based interventions as part of a radical re imagination of how street homelessness can be ended one person and one neighbourhood at a time The analysis by the authors steers the direction of new ways of doing and being that could demonstrate concrete viable and sustainable alternatives to the exclusionary realities faced by homeless persons It argues for solution based approaches aimed at radical forms of social inclusion and achieved through broad based and creative collaborations by all spheres of society In the face and presence of street homelessness as one expression of urban vulnerability and deep socio economic inequality society is confronted with a clear political institutional moral and personal obligation This volume calls for a

reclamation of community in its most inclusionary life affirming and interdependent sense asserting that we truly are well because of others and we are unwell if others are It is a call to reclaim our common humanity in the context of inclusive communities where all are equally welcome and bestowed with dignity and honour

Digital inequality in a developing context Nobert R. Jere, Gardner Mwansa, Memory Ranga, Attlee M. Gamundani, Pardon B Maoneke, 2025-04-15 Digital inequality in a developing context A multifaceted approach critically explores the complex and persistent nature of the digital divide in South Africa addressing a notable gap in existing scholarship Drawing on secondary data the book examines how digital inequalities manifest across key sectors such as education healthcare and agriculture sectors vital to national development and individual well being These disparities are shaped by intersecting socio economic technical and geographical factors particularly the urban rural divide The volume underscores the importance of infrastructure development digital literacy affordability and equitable access as central to bridging the digital gap It argues that without targeted and sustained interventions in these areas digital inequality will continue to hinder socio economic progress and deepen existing structural inequalities This scholarly book offers fresh perspectives and practical insights for researchers policymakers and practitioners seeking to advance digital inclusion in developing contexts
