Fault Codes Mastertech Staff,1997-09-01 *Diagnostic Fault Codes Manual* Ал ь фамер Паблиннг, ЗАО, *The RELLIM Code Book* ,2005 *Trouble Codes* Bergwall Productions Inc.,1988-01-01 **Users manual: error codes** United States. Defense Communications Agency,1971 **Introduction to Error Control Codes** Salvatore Gravano,2001 This textbook provides a firm foundation for those studying the field of error control codes giving step by step instruction on this complex topic beginning with single parity code checks and repetition codes Through these basic error control mechanisms the fundamental principles of error detection and correction minimum distance and error control limits are considered With the use of detailed examples it guides students from basic error control codes through linear codes cyclic codes linear feedback shift registers vector fields Galois fields BCH codes and convolutional codes There are many detailed examples throughout the book to illustrate the principles and complex mathematical proofs are omitted where possible to keep the text concise and easy to follow **Codes For Error Detection** Torleiv Klove,2007-04-25 There are two basic methods of error control for communication both involving coding of the messages With forward error correction the codes are used to detect and correct errors In a repeat request system the codes are used to detect errors and if there are errors request a retransmission Error detection is usually much simpler to implement than error correction and is widely used However it is given a very cursory treatment in almost all textbooks on coding theory Only a few older books are devoted to error detecting codes This book begins with a short introduction to the theory of block codes with emphasis on the parts important for error detection The weight distribution is particularly important for this application and is treated in more detail than in most books on error correction A detailed account of the known results on the probability of undetected error on the q ary symmetric channel is also given **Error-correcting Codes** William Wesley Peterson,1961 *Cascaded Binary Error Codes. Part 1: Performance Criteria for Cascaded and Other Error Codes* AEROSPACE CORP EL SEGUNDO CALIF.,1963 **Error-correcting codes** William Wesley Peterson,Edward J.
