Anxious Decades: America in Prosperity and Depression, 1920-1941 Michael E. Parrish,1994-04-17 Impressively detailed An authoritative and epic overview Publishers Weekly In the convulsive years between 1920 and 1941 Americans were first dazzled by unprecedented economic prosperity and then beset by the worst depression in their history It was the era of Model T s rising incomes scientific management electricity talking movies and advertising techniques that sold a seemingly endless stream of goods But it was also a time of grave social conflict and human suffering The Crash forced Hoover and then Roosevelt and the nation to reexamine old solutions and address pressing questions of recovery and reform economic growth and social justice The world beyond America changed also in these years making the country rethink its relation to events in Europe Latin America and Asia The illusion of superiority slowly died in the 1930s sustaining a fatal blow in December 1941 at Pearl Harbor

*The Photographic Uncanny* Claire Raymond,2019-11-23 This book argues for a renewed understanding of the fundamentally uncanny quality of the medium of photography It especially makes the case for the capacity of certain photographs precisely through their uncanniness to contest structures of political and social dominance The uncanny as a quality that unsettles the perception of home emerges as a symptom of modern and contemporary society and also as an aesthetic apparatus by which some key photographs critique the hegemony of capitalist and industrialist domains The book s historical scope is large beginning with William Henry Fox Talbot and closing with contemporary indigenous photographer Bear Allison and contemporary African American photographer Devin Allen Through close readings exegesis of individual photographs and careful deployment of contemporary political and aesthetic theory *The Photographic Uncanny* argues for a re envisioning of the political capacity of photography to expose the haunted homeless condition of modernity

**Out of Time** Robert Slifkin,2013-08-31 Focusing on the thirty three paintings that Philip Guston exhibited at the Marlborough Gallery in 1970 this in depth account reconsiders the history of postwar American art and the conception of figuration in modern art history Through a myriad of cultural touchstones including evidence from literary and musical vogues of the period Robert Slifkin examines the role of history as both artistic medium and creative catalyst to Guston s practice as a painter Slifkin employs a wealth of visual examples archival materials and original scholarship to situate Guston s paintings within broader artistic debates of the time using the cultural movement of the sixties as its orienting foreground This historical framework provides an interface between the notions of time in art and time in the material world Lively and edifying Slifkin s comprehensive text productively complicates the prescribed traditions of postwar art history and in turn shifts our perception of Guston and his place in the domain of modern art

Intellectuals Incorporated Robert Vanderlan,2011-06-06 Publishing tycoon Henry Luce famously championed many conservative causes and his views as a capitalist and cold warrior were reflected in his glossy publications Republican Luce

aimed squarely for the Middle American masses yet his magazines attracted intellectually and politically ambitious minds who were moved by the democratic aspirations of the New Deal and the left Much of the best work of intellectuals such as James Agee Archibald MacLeish Daniel Bell John Hersey and Walker Evans owes a great debt to their experiences writing for Luce and his publications Intellectuals Incorporated tells the story of the serious writers and artists who worked for Henry Luce and his magazines Time Fortune and Life between 1923 and 1960 the period when the relationship between intellectuals the culture industry and corporate capitalism assumed its modern form Countering the notions that working for corporations means selling out and that the true life of the mind must be free from institutional ties historian Robert Vanderlan explains how being embedded in the corporate culture industries was vital to the creative efforts of mid century thinkers Illuminating their struggles through careful research and biographical vignettes Vanderlan shows how their contributions to literary journalism and the wider political culture would have been impossible outside Luce s media empire By paying attention to how these writers and photographers balanced intellectual aspiration with journalistic perspiration Intellectuals Incorporated advances the idea of the intellectual as a connected public figure who can engage and criticize organizations from within Literature at the Barricades Ralph F. Bogardus, Fred Hobson, 1982-06-30 Chiefly essays presented at the Fifth Alabama Symposium on English and American Literature Tuscaloosa Ala Oct 19 21 1978 **The Headmaster's Darlings** Katherine Clark, 2015-08-18 A debut novelist casts a satirical eye at southern society while celebrating the power of great teachers in this award winning comedy of manners Winner of the 2015 Willie Morris Award for Southern Fiction As an English teacher at an elite private school in Mountain Brook Alabama Norman Laney is as unorthodox as he is morbidly obese A natural wonder from the blue collar South Laney has barged into the exclusive world of Mountain Brook with a mission to defeat the barbarians introduce true civilization in place of its thin veneer and change his southern world for the better Laney is adored by his students and by the society ladies who rely on him to lead their book clubs and charm their party guests But there are others who think he is a larger than life menace to the status quo When Laney is suddenly faced with an ultimatum and his imminent dismissal he must outflank the principal at his own underhanded game find out who said what about him and why and launch his current crop of Alabama students into the wider world or at least into Ivy League colleges
