Wallis Budge Magic And Mummies In London And:

Wallis Budge Matthew Djun Ismail, *Rider Haggard and the Imperial Occult* Simon Magus, 2021-12-06 In *Rider Haggard and the Imperial Occult* Simon Magus offers the first academic monograph on the world of occult thought which lies behind and beneath the fictional writing of H Rider Haggard It engages with a broad scope of religious philosophical and anthropological ideas Many of these were involved in debates within the controversies of the Anglican Church which occurred in the face of Darwinism and the criticism of the Bible The book follows three main intellectual currents involved in the promulgation of these ideas namely the reception of ancient Egypt the resurgence of Romanticism and the ideas of the Theosophical Society all couched within the context of Empire Mummified Angela Stienne, 2022-06-07 Mummified explores the curious unsettling and controversial cases of mummies held in French and British museums From powdered mummies eaten as medicine to mummies unrolled in public dissected for race studies and DNA tested in modern laboratories there is a lot more to these ancient remains than first meets the eye This book takes you on a journey from Paris to London Leicester and Manchester from the apothecaries of the Middle Ages to the dissecting tables of the eighteenth century and finally behind the screen of today's computers to revisit the stories of these bodies that have fascinated Europeans for so long Mummified investigates matters of life and death of collecting and viewing and of interactions sometimes violent and sometimes emotional that question the essence of what makes us human Victorian Alchemy Eleanor Dobson, 2022-10-06 Victorian Alchemy explores nineteenth century conceptions of ancient Egypt as this extant civilisation was being rediscovered in the modern world With its material remnants somewhat paradoxically symbolic of both antiquity and modernity in the very currentness of Egyptological excavations ancient Egypt was at once evocative of ancient magical power and of cutting edge science a tension that might be productively conceived of as alchemical Allusions to ancient Egypt simultaneously lent an air of legitimacy to depictions of the supernatural while projecting a sense of enchantment onto representations of cutting edge science Examining literature and other cultural forms including art photography and early film Eleanor Dobson traces the myriad ways in which magic and science were perceived as entwined and ancient Egypt evoked in parallel with various fields of study from imaging technologies and astronomy to investigations into the electromagnetic spectrum and the human mind itself In so doing counter to linear narratives of nineteenth century progress and demonstrating how ancient Egypt was more than a mere setting for Orientalist fantasies or nightmares the book establishes how conceptions of modernity were inextricably bound up in the contemporary reception of the ancient world and suggests how such ideas that took root and flourished in the Victorian era persist to this day The Greco-Egyptian Magical Formularies Christopher Faraone, Sofia Torallas Tovar, 2022-11-14 In *Greco Roman Egypt* recipes for magical undertaking called magical formularies commonly existed for love potions curses attempts to best business rivals many of the same challenges that modern people might face In *The Greco Egyptian Magical Formularies* Libraries Books and Individual

Recipes volume editors Christopher Faraone and Sofia Torallas Tovar present a series of essays by scholars involved in a multiyear project to reedit and translate the various magical handbooks that were inscribed in the Roman period in the Greek or Egyptian languages For the first time the material remains of these papyrus rolls and codices are closely examined revealing important information about the production of books in Egypt the scribal culture in which they were produced and the traffic in single recipes copied from them Especially important for historians of the book and the Christian Bible are new insights in the historical shift from roll to codex complicated methods of inscribing the bilingual papyri in which the Greek script is written left to right and the demotic script right to left and the new realization that several of the longest extant handbooks are clearly compilations of two or more shorter handbooks which may have come from different places The essays also reexamine and rethink the idea that these handbooks came from the personal libraries of practicing magicians or temple scriptoria in one case going so far as to suggest that two of the handbooks had literary pretensions of a sort and were designed to be read for pleasure rather than for quotidian use in making magical recipes

Ancient Egypt in the Modern Imagination Eleanor Dobson, Nichola Tonks, 2020-01-23 Ancient Egypt has always been a source of fascination to writers artists and architects in the West This book is the first study to address representations of Ancient Egypt in the modern imagination breaking down

conventional disciplinary boundaries between fields such as History Classics Art History Fashion Film Archaeology Egyptology and Literature to further a nuanced understanding of ancient Egypt in cultures stretching from the eighteenth century to the present day emphasising how some of the various meanings of ancient Egypt to modern people have traversed time and media Divided into three themes the chapters scrutinise different aspects of the use of ancient Egypt in a variety of media looking in particular at the ways in which Egyptology as a discipline has influenced representations of Egypt ancient Egypt's associations with death and mysticism as well as connections between ancient Egypt and gendered power The diversity of this study aims to emphasise both the multiplicity and the patterning of popular responses to ancient Egypt as well as the longevity of this phenomenon and its relevance today

From Fascination to Folly: A Troubled History of Collecting since the 1600s Charles Merewether, 2024-12-25 This book explores the interplay of Western European exploration and trade with collecting cabinets of curiosities and museums and with the role of booty and plunder in the building of empires from ca 1600 until the end of the 19th century The book focuses principally on the Dutch English Spanish French and Italian at different times of their colonial power over the course of these 300 years The achievements of exploration and trade provide the basis for these countries and both the state and individuals to build collections and museums This involved governments to legitimize the pursuit of booty and subsequently looting whether by themselves members of the ruling class or privateers Throughout much of this period there those who stood up and challenged such practices passing laws to criminalize curtail or contain these activities By the late 18th century these parallel but disparate activities converged It was era of Napoleon and his imperial ambitions that drew these disparate activities together with his support of intellectual inquiry alongside military plunder and collecting This served as a symbol of imperial power of the French empire that alongside England and Italy exploited the wealth and riches of Egypt India and China

Classics in Extremis Edmund Richardson, 2018-12-13 *Classics in Extremis* reimagines classical reception. Its contributors explore some of the most remarkable, hard fought and unsettling claims ever made on the ancient world from the coal mines of England to the paradoxes of Borges from Victorian sexuality to the trenches of the First World War from American public school classrooms to contemporary right wing politics. How does the reception of the ancient world change under impossible strain? Its protagonists are marginal figures who resisted that definition in the strongest terms. Contributors argue for a decentered model of classical reception where the marginal shapes the central as much as vice versa and where the most unlikely appropriations of antiquity often have the greatest impact. What kind of distortions does the model of centre and margins produce? How can marginal receptions be recovered most effectively? Bringing together some of the leading scholars in the field, *Classics in Extremis* moves beyond individual case studies to develop fresh methodologies and perspectives on the study of classical reception.

The Ark Before Noah Irving Finkel, 2014-03-25 The recent translation of a Babylonian tablet launches a groundbreaking investigation into one of the most famous stories in the world, challenging the way we look at ancient history. Since the Victorian period it has been understood that the story of Noah, iconic in the Book of Genesis and a central motif in Judaism, Christianity and Islam, derives from a much older story that existed centuries before in ancient Babylon. But the relationship between the Babylonian and biblical traditions was shrouded in mystery. Then in 2009 Irving Finkel, a curator at the British Museum and a world authority on ancient Mesopotamia, found himself playing detective when a member of the public arrived at the museum with an intriguing cuneiform tablet from a family collection. Not only did the tablet reveal a new version of the Babylonian Flood Story, the ancient poet described the size and completely unexpected shape of the ark and gave detailed boat building specifications. Decoding this ancient message, wedge by cuneiform wedge, Dr Finkel discovered where the Babylonians believed the ark came to rest and developed a new explanation of how the old story ultimately found its way into the Bible. In *The Ark Before Noah*, Dr Finkel takes us on an adventurous voyage of discovery, opening the door to an enthralling world of ancient voices and new meanings.

Histories of Egyptology William Carruthers, 2014-07-11 *Histories of Egyptology* are increasingly of interest to Egyptologists, archaeologists, historians and others. Yet particularly as Egypt undergoes a contested process of political redefinition, how do we write these histories and what or who are they for? This volume addresses a variety of important themes: the historical involvement of Egyptology with the political sphere; the manner in which the discipline stakes out its professional territory; the ways in which practitioners represent Egyptological knowledge and the relationship of this knowledge to the public sphere. *Histories of Egyptology* provides the basis to understand how Egyptologists constructed their discipline. Yet the volume also demonstrates how they construct ancient Egypt and how that construction interacts with much wider concerns of society and of the making of the modern world.

The Cyrus Cylinder Irving Finkel, 2013-03-07 Some historical artifacts are destined forever to alter how the ancient world is perceived The unearthing in today's Iraq in 1879 of a clay cylinder shaped decree from Cyrus the Great founder of the Achaemenid dynasty of Persia stands in the same tradition of game changing discoveries from antiquity as Hammurabi's famous law code or the intact tomb of the boy king Tutankhamun For the Cyrus Cylinder contains in microcosm the whole history of its period Inscribed with an account of the conquest of Babylon in 539 BC by the Persian king it records an event which launched one of the greatest imperial adventures in history It describes Cyrus capture and deposition of Nabonidus last native Babylonian ruler represented by the Cylinder text as an oppressor of his own people and proclaims the Persian aided by the god Marduk as a liberator His annexation of Babylon was to become the platform upon which the Achaemenid military machine built its later vast imperium But the Cylinder is more than an ancient exercise in propaganda It has been celebrated as the world's first declaration of human rights and an international symbol of religious tolerance setting out the decree from which Cyrus freed the Jews in Babylon an event recorded by Isaiah Few other objects from antiquity are invested with so many hopes for the future This important volume is the first to discuss the Cylinder and its remarkable history Written by internationally respected authorities from the British Museum it offers a fresh consideration of its subject in the light of new discoveries Included here is a complete new translation of the Cylinder inscription using recently identified but previously unpublished sources Archive materials have allowed a fresh investigation of the circumstances of the original nineteenth century find by Hormuzd Rassam and a reappraisal of the mysterious Chinese bone forgeries The book also discusses the extraordinary and evolving history of Cyrus timeless message a message that continues powerfully to resonate

Stolen Fragments Roberta Mazza, 2024-09-24 In 2012 Steve Green billionaire and president of the Hobby Lobby chain of craft stores announced a recent purchase of a Biblical artefact a fragment of papyrus just discovered carrying lines from Paul's letter to the Romans and dated to the second century CE Noted scholar Roberta Mazza was stunned When was this piece discovered and how could Green acquire such a rare item The answers which Mazza spent the next ten years uncovering came as a shock the fragment had come from a famous collection held at Oxford University and its rightful owners had no idea it had been sold The letter to the Romans was not the only extraordinary piece in the Green collection They soon announced newly recovered fragments from the Gospels and writings of Sappho Mazza's quest to confirm the provenance of these priceless fragments revealed shadowy global networks that make big business of ancient manuscripts from the Green's Museum of the Bible and world famous auction houses like Sotheby's and Christie's to antique shops in Jerusalem and Istanbul dealers on eBay and into the collections of renowned museums and universities Mazza's investigation forces us to

ask what happens when the supposed custodians of our ancient heritage act in ways that threaten to destroy it Stolen Fragments illuminates how these recent dealings are not isolated events but the inevitable result of longstanding colonial practices and the outcome of generations of scholars who have profited from extracting the cultural heritage of places they claim they wish to preserve Where is the boundary between protection and exploitation between scholarship and larceny
