Novice Youth Director L. Seth Duhs, 2023-06-15 After being on staff for nearly a month the youth director was suddenly summoned into the senior pastor's office. The pastor quickly shut the door and skipping all pleasantries boldly announced I'd love to help you I just don't have time for you. Uncertain of how to respond and with no questions allowed the youth director was dismissed. That was the last meeting he ever had with the senior pastor. Weren't there supposed to be ample amounts of excitement for the newly appointed fresh youth director? This fresh but now confused youth director wanted to do a good job but had no idea where to begin. He was young and everyone was too busy to mentor him even when he had asked for help. Perhaps you're in a similar situation but you're hesitant to admit it out loud. This book is a practical guide aimed at helping anyone struggling with escaping the tempting isolated island of youth ministry and building a network of kingdom minded students, parents and church members focused on living for Jesus Christ in what sometimes seems like a Jesus-less world.

Deserting the Superstore Noah Shuster, 2025-08-29 Corporate retail chains like Walmart and Target are the largest employers of working class Americans. And yet this class of workers is rarely examined as political agents in contrast to union workers or government employees. What is often presumed about retail workers that they steal from their employers, are frequently absent for shifts and present lazy attitudes is seen as reflective of the personal character of these workers. In *Deserting the Superstore* Noah Shuster explores the political agency and power of corporate retail chains employees. He argues these employees are politically aware and politically active but tend to direct their efforts towards disobedience and desertion rather than reform. Through over two dozen interviews Shuster presents narratives of corporate retail employees' experiences of their work and how they take action to attain and preserve dignity in the workplace. This study finds retail workers articulating values that are contrary to capitalist ideology and that encouragingly point towards the possibility of a post capitalist future among the U.S.'s post industrial working class.

On the Job Heather Akou, 2024-02-22 Through a variety of archival documents, artefacts, illustrations and references to primary and secondary literature *On the Job* explores the changing styles, business practices and lived experiences of the people who make, sell and wear service industry uniforms in the United States. It highlights how the uniform business is distinct from the fashion business including how manufacturing developed outside of the typical fashion hubs such as New York City and gives attention to the ways that various types of employers, small business, corporate, government and others differ in their ambitions and regulations surrounding uniforms. *On the Job* sheds new light on an understudied yet important field of dress and clothing within everyday life and is an essential addition to any fashion historian's library appealing to all those interested in material culture, the service industry heritage and history.
