Without Denomination: A Critique of Church Doctrines Roy D. Perkins,2016-01-20 As the subtitle says the book is a critique of denominational church doctrines It is an objective writing as I the author have made every attempt to keep personal biases and subjective thinking out of the writing It deals with denominational churches as to what s right in their doctrines and what s wrong As mentioned 100% of all church doctrines do not line up with the scriptures Some churches come close but no cigar Others are so far out that I cannot fathom why they are called Christian Churches The book discusses a host of contemporary topics which the Bible mentions in detail In addition to man made traditions of all the churches the book tackles taboo topics in the church world such as abortion alcoholism smoking drugs gambling homosexuality infant baptism Jehovah s Witnesses Mormons Islam Agnosticism Atheism Women in the Church Divorce Interfaith Services The Tribulation Tithing 666 Welfare Social Security Disability and paid salaries for the clergy The book has mostly scriptural references but some non scriptural references too All statements are supported with a Biblical verse s or occasionally with an article or a personal reference The Biblical references are from the King James Version the New International Version or sometimes paraphrased The book flows easily as I used 1 98 words rather than 100 00 words It is written so that the average 12 year old will understand it Although I mention particular denominations I never mention the names of churches or the names of people who were involved in the various scenes of the book The book is an educational and enlightening tool for pastors sermons Bible studies and Sunday School Classes The book s one endeavor is to reveal the truth about Christianity I don t understand why someone else didn t write this book decades ago This book reveals to the readers that their churches and church leaders are not what they claim to be In the book there are some interesting and humorous anecdotes about situations which help to get a point across They are lessons learned This book is meant for Christian readers as well as non believers and for those who are on the fence This book will cause one to think and perhaps reevaluate his or her position on God salvation and what is next after he or she departs this world

Chicano Manual on How to Handle Gringos Jos? Angel Guti?rrez,2003-04-30 Under this somewhat threatening title the renowned civil rights leader Jos Angel Guti rrez provides a guidebook to minority empowerment through the use of analysis practical experience and anecdote His primary goal is the conversion of Latino demographic power into educational economic and political power In an incisive introduction Guti rrez analyzes the types of power and evaluates Chicano and Latino access to power at various levels in U S society In very plain down to earth language and examples Guti rrez takes pains to make his broad knowledge and experience available to everyone but especially to those who want to be activists for themselves and their communities For him the empowerment of a minority or working class person can transfer into greater empowerment of the whole

community This manual penned by the founder of the only successful Hispanic political party La Raza Unida brings together an impressive breadth of models to either follow or avoid Quite often Gutierrez's voice is not only the seasoned voice of reason but also that of humor, wit and satire If nothing else The Chicano Manual on How to Handle Gringos is a wonderful survey of the Chicano and Latino community on the move in all spheres of life in the United States on the very eve of its demographic and cultural ascendancy Conquering the Borderlands Lorraine Veisz, 2009-06 In terms of United States history the Borderlands are the territories from Alta California to La Florida that formed the northern frontier of Spain's New World empire Conquering the Borderlands relates their histories, landscapes and cultures as they unfolded during the author's Southern Tier bicycle journey from San Diego to St Augustine The Southern Tier route intersects the paths of Spanish conquistadors, stagecoach routes and cattle drives all of which come alive in the pages of this book A ferry across the Mississippi evokes Mark Twain's account of life on the river Louisiana's bayous recall Evangeline Longfellow's poem about the Acadian exile from Canada Curious javelinas emerge on West Texas roads, carnivorous plants alongside Deep South highways On a personal level the author describes the rigors of the trip and the anxieties that spring from attempting a cross country ride nearly forty years after the goal first captured her imagination The author coined the term chronological borderlands for that stage in life when professional and family responsibilities have been met and deferred dreams spring to life with a renewed sense of possibility coupled with apprehension that physical limits may be closing the door The book is not intended to replace travel guides and maps but to serve as a valuable companion piece that can further enrich the experience of Southern Tier travel by bicycle, car or armchair **Daily Labor Report**, 2008-07 **Reinventing the Wheel** Chris Zane, 2011-03-01 When Chris Zane bought his bicycle shop at age 16 his business struggled until he discovered the secret that catapulted his store into one of the largest in the country His secret? Provide unbelievable over the top, excessively generous customer service Chris Zane isn't a management consultant or professor preaching a theory of customer service he's a hands on entrepreneur whose customer service approach has yielded enormous success Zane has become a business celebrity including being featured in the most recent round of American Express television ads Featured in the New York Times and in Associated Press articles and bestowed numerous awards for its unique business practices and outstanding customer relations Zane's Cycles has produced ideas thought by many to be pie in the sky But these counterintuitive concepts have proven to be hard headed and effective For example Zane's offers a trade in program for families who can turn in bicycles their kids have outgrown for a 100 percent credit toward new ones Initially thought impossibly generous this program has proven to be good business Experience and a clear understanding of the lifetime value of a customer makes this program and many others Zane's implements work In Reinventing the Wheel commonly overlooked elements that make a business exceptional are revealed Zane produces a case study unlike any other one that shows the importance of investing in customers and employees and how businesses are really selling experiences not products His philosophies and tried and true
