All In

Robert Bruce Shaw, 2020-07-07 Extraordinary leaders share a passionate commitment to achieving their vision that borders and sometimes crosses the line into obsession. All In shows why obsession, if properly focused and managed, is both necessary and productive.

Advances in any endeavor almost always depend on a small group of individuals who are completely consumed by the goal they are pursuing. When these leaders and teams are successful, everyone benefits from their obsessive nature. This book explores the three obsessions underlying the achievements of the greatest leaders: delighting customers, building great products, and creating an enduring company. Author Robert Bruce Shaw takes you inside the success stories of iconic leaders and shows the upside of obsession plus the practices that support it, including Jeff Bezos of Amazon, Elon Musk of Tesla, and Steve Jobs of Apple. In *All In*, Shaw teaches you why Amazon's first principle is customer obsession and the behaviors that sustain it as the firm becomes one of the largest in the world. Tesla puts products at the center of everything it does and the leadership approach that created a revolutionary electric car. Steve Jobs' greatest creation was not the Mac or iPhone but Apple, the company. Shaw also provides insight into the dark side of obsession and its destructive potential, as vividly illustrated in his case study of Uber's aggressive pursuit of growth during the tenure of CEO Travis Kalanick. Appealing to any reader of entrepreneurial biographies, *All In* shows individuals, teams, and organizations how to manage obsession's downsides while realizing the benefits of relentlessly seeking to create something that truly matters.

How can we understand the appeal of Disney products? What is it about the Disney phenomenon that attracts so many children as well as adults? In this updated second edition, with new examples provided throughout, Janet Wasko examines the processes by which the Disney company, one of the largest media and entertainment corporations in the world, continues to manufacture the fantasies that enthrall millions. She analyzes the historical expansion of the Disney empire into the twenty-first century, examines the content of Disney's classic and more recent films, cartoons, and TV programs, and discusses how they are produced, considering how some of the same techniques have been applied to the Disney theme parks. By looking at the Disney phenomenon from a variety of perspectives, she provides an updated and comprehensive overview of one of the most significant media and cultural institutions of our time. This important book, by a leading scholar of the entertainment industries, will be of great interest to students in media and cultural studies as well as a broader readership of Disney fans.

Walt Disney Neal Gabler, 2007 His classic films illuminated everyone's childhood. The theme parks are on every tourist itinerary. The movie empire is one of Hollywood's biggest players. Walt Disney is one of the few men who unquestionably changed our culture. Neal Gabler is the first author to have had complete access to the Disney Archives, enabling him to write the definitive biography of this remarkable man. It's a long book, as Disney's achievement was so huge, but a truly compulsive read. He shows how Disney built up his fledgling studio with short cartoons featuring Mickey Mouse and Donald Duck before quite simply inventing animation with full-length films like *Snow White*, *Pinocchio*, and *Dumbo*. The Making of Disney's Jungle Cruise Michael Goldman, 2021-07-30 Like the famed theme park attraction and brand new feature film that this volume examines *The Making of Disney's Jungle Cruise* takes readers on a unique and fascinating journey. It's an odyssey through the history and legacy of one of the most original ideas ever to come out of Walt Disney's fertile mind, first planned for the opening of his revolutionary new theme park in 1955. This book travels from the debut of what was called the Jungle River Cruise on Disneyland's opening day through the arrival at long last of the thrilling feature film starring Dwayne Johnson and Emily Blunt and directed by Jaume Collet Serra. On Disneyland's opening day of July 17, 1955, the park's first guests boarded authentically styled riverboats to take the first Jungle Cruises. This unique riverboat-themed attraction in Adventureland takes visitors on a short journey down expertly simulated versions of the most prominent tropical rivers of the world, including the Amazon and the Nile, to witness wild animals, exotic sights, and thrills only a handful of intrepid real-world explorers had experienced in the past. A hilarious and punny Jungle Cruise skipper narrates all the sights and action from beginning to end. This Jungle Cruise experience would ultimately be woven into three other Disney parks where the ride was likewise an opening day attraction, simulating comedic high-adventure cruises through rivers in the continents of South America, Africa, and Asia. Fast forward decades, and at long last, production on the movie commenced. The project was influenced by director Jaume Collet Serra's love of *The African Queen*, *Indiana Jones* films, and *Romancing the Stone*, among others, and built on the foundation of key elements of the theme park attraction. From the re-creation of the Amazon River to the film's hilarious take on famous skipper puns and the reams of Easter eggs for longtime fans, the *Jungle Cruise* movie captures the same excitement and joy as the theme park attraction and

The Hell of War Comes Home

Owen W. Gilman Jr., 2018-02-09 Owen W. Gilman Jr. stresses the US experience of war in the twenty-first century and argues that wherever and whenever there is war, there will be imaginative responses to it, especially the recent wars in Afghanistan and Iraq. Since the trauma of September 11, the experience of Americans at war has been rendered honestly and fully in a wide range of texts: creative nonfiction and journalism, film, poetry, and fiction. These responses, Gilman contends, have packed a lot of power and measure up even to World War II's literature and film. Like few other books, Gilman's volume studies these new texts among them Kevin Powers's debut novel *The Yellow Birds* and Phil Klay's short stories *Redeployment*, along with the films *The Hurt Locker*, *American Sniper*, and *Billy Lynn's Long Halftime Walk*. For perspective, Gilman also looks at some touchstones from the Vietnam War. Compared to a few of the big Vietnam books and films, this new material has mostly been read and watched by small audiences and generated less discussion. Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact. He contends that Americans' inclination to demand distraction limits learning from these compelling responses to war in the past decade. According to Gilman, where there should be clarity and depth of knowledge, we instead face misunderstanding and the anguish endured by

veterans betrayed by war and our lack of understanding
