Krüger,2012-12-06 1 1 Short History of Solar Radio Astronomy Since its birth in the forties of our century solar radio astronomy has grown into an extensive scientific branch comprising a number of quite different topics covering technical sciences astrophysics plasma physics solar terrestrial physics and other disciplines Historically the story of radio astronomy goes back to the times of James Clerk Maxwell whose well known phenomenological electromagnetic field equations have become the basis of present time radio physics As a direct consequence of these equations Maxwell was able to prognosticate the existence of radio waves which fifteen years later were experimentally detected by the famous work of Heinrich Hertz 1887 88 However all attempts to detect radio waves from cosmic objects failed until 1932 which was mainly due to the early stage of development of receiving techniques and the as yet missing knowledge of the existence of a screening ionosphere which was detected in 1925 Therefore famous inventors like Thomas Edison and A E Kennelly as well as Sir Oliver Lodge were unsuccessful in receiving any radio emission from the Sun or other extraterrestrial sources Another hindering point was that nobody could a priori expect that solar radio emission should have something to do with solar activity so that unfortunately by chance some experiments were carried out just at periods of low solar activity This was also why Karl Guthe Jansky at the birth of radio astronomy detected galactic radio waves but no emission from the Sun Japanese Cinema and Punk Mark Player,2025-05-15 In Japanese Cinema and Punk Mark Player examines how the do it yourself ethos of punk empowered a new generation of Japanese filmmakers during a period of crisis and change in Japan s film industry Drawing on rare materials and first hand interviews with key figures from the jishu eiga self made film tradition including Ishii Gakuryu formerly Ishii Sogo Yamamoto Masashi Tsukamoto Shin ya and Fukui Shozin Player explores how punk s bricolage style was leveraged to create exciting intermedial film aesthetics These aesthetics were influenced by rock music graffiti art street performance handmade animation television and other mass media By considering the practical phenomenological and political ramifications of combining diverse media elements Player offers in depth analyses of films such as Burst City 1982 Robinson s Garden 1987 Tetsuo The Iron Man 1989 and more He further traces the changing sociocultural position of Japan s punk generation throughout the 1980s from its euphoric early 80s peak to the growing disillusionment caused by its mainstream co optation and convergence *Systems Research II* Kyoichi Kijima,Junichi Iijima,Ryo Sato,Hiroshi Deguchi,Bumpei Nakano,2022-05-10 This book is in honor of Yasuhiko Takahara a first class researcher who has been active for some 50 years at the global level in systems research Researchers and practitioners from Japan and other countries who have been influenced by Takahara have come together from far and wide to contribute their major research masterpieces in the field of systems research in the broadest sense While the roots of Takahara s systems research are in general systems theory and systems control theory he developed his research and teaching in diverse
